#### CHAMBER OF COMMERCE SUGGESTS ELIMINATION OF SWITCHING CHARGES ON COAL

For some time past the chamber of commerce has been working for the elimination of the switching charge via Providence is to equalize the rates in Lowell from Providence, R. I., via the New York, New Haven and Hartford railroad and the Boston & Maine. The switching charge per ton on coal delivered from Providence amounts to 6 cents. This creates a very formidable charge on coal shipments to Lowell on 20 tons for instance, it would equal \$12. The reason for suggesting

National Guardsmen Called to Prevent Lynching of Two Men in Jail

One of the Prisoners is Accused of Assault on Young Girl

SPRINGFIELD, Ills., July 27.—(By the Associated Press) A company of Illinois National Guardsmen was sent to Tamms in Alexander county, by Adjutant General Carlos E. Black, early this morning at the request of Sheriff James S. Roche of Cairo. The sheriff said he feared popular indignation would result in the lynching of James Hazelwood and Andrew Corbett, two men held in Tamms jail, in connection with an assault on a girl of Tamms.

Major William P. Greaney and Company K of the 13th Infantry of Cairo, the general announced, received the call and by 5:30 o'clock this morning for help at 5:30 o'clock the troops were guarding the jail.

53-Year-Old Baker Shot Bride of Two Weeks When She Refused to Elope With Him

NEW YORK, July 27.—William Smith, 53 year old baker, today shot Mrs Anna Loshinsky, a 20-year-old bride of two weeks, at her home on East 7th street because she had refused to elope with him, and then shot himself.

Mr. Loshinsky was hit in both legs but is expected to recover. Smith later died in a hospital.

A bedroom floor, made of blue glass with a pattern in enamel, was recently exhibited in London.

## IT SOUNDS PECULIAR

Story of How Town of Peculiar in "Show Me" State Was Named

WASHINGTON, July 28.—(By the Associated Press)—There is a very peculiar name for a town.

The federal government does not name towns and hamlets when they are born or feel the urge for a cognomen, but the post office department does regulate them to the extent of prohibiting duplicating of names within the same state. So when a newly formed community in Missouri suggested a certain name for its post office, the department informed the inhabitants there was already one by that name in their state.

Several other names were chosen by the residents and submitted, but always with the same result. Finally an exasperated official of the department, in refusing the latest choice, wrote the city fathers among other things "that it was mighty peculiar they could not find good name for their town." Whereupon, he received the following reply: "Acting on your suggestion we select the name Peculiar." And so Peculiar is on the map of today.

There is only one rule in the naming of new towns, and that is that there shall be but one of the same name in a state. But that does not prohibit other states from boasting towns of the same name. For instance, there are 45 names used more than 20 times each to designate towns and cities. Benjamin Franklin is remembered as an inspiration more than any other person, and Franklin as a town name takes the prize, occurring 31 times in 31 states. The others in point of popularity run: Clinton, 30 times; Chester, 29; Arlington, 28; Washington, 25; Troy, 27; Salem, 27; Madison, 27; Marion, 27; Manchester, 27; Clayton, 27; Glenwood, 26; Kingston, 26; Newport, 25; Ashland, 25; Canterbury, 25; Cleveland, 24; Auburn, 24; Dover, 24; Hillsboro, 24; Lincoln, 24; Monroe, 24; Oxford, 24; Princeton, 24; Springfield, 24; Warren, 24; Union, 24; Greenville, 23; Wilson, 23; Belmont, 22; Buffalo, 22; Canton, 22; Dayton, 22; Eureka, 22; Liberty, 22; Milford, 22; Plymouth, 22; Burlington, 21; Lebanon, 21; Portland, 20; Lexington, 20; Jamestown, 20; Hudson, 20, and Danville, 20.

Duplicated names are the bane of the postal clerk, and the Yankee reputation for originality rises staggering when confronted by the apparent lack of imagination used to name American communities. There are even two Chicago's, six Philadelphia's, seven Detroit's, and 14 Denver's.

Similarity in names also causes the postal department considerable trouble. Indistinct penmanship might easily confuse Elmore, La., with Eldorado, La. In Pennsylvania alone there are 13 communities whose names begin with the prefix Green: Greena, Greenbridge, Greenbury, Greenastle, Greenland, Greenock, Greenpark, Greenboro, Greensburg, Greenslawn, Greenstown, Greenville, and Greenwald. There is a partiality for Bloom as a prefix in New York state, as for example, Bloomsburg, Bloomsdale, Blooming Grove, Bloomington and Bloomville. Foreign cities have contributed their names freely in this country. There are 18 towns known as Paris and a like number of Geneva, 17 Berlin despite the war, 12 Moscow, 11 Vienna, 6 Pekins and 2 Brussels.

BIG REAL ESTATE  
BOOM IN JAPAN

TOKYO, July 27.—(By the Associated Press)—The demand for homes at the various seaside and mountain resorts of Japan made famous by foreigners is even on the increase, and those foreigners who invested wisely are reaping the harvest. Prices have gone up ten fold within the last few years and there seems no tendency to fall. At Kamakura, the mountain resort in which missionaries from all over the far east flock in summer, and where the price per cent will stand up, of this reason, very high prices are being paid for houses and land. The same is true at Kamakura, Zushi and Hayama, the seaboard resorts, formerly almost entirely foreign, which have been invaded by the Japanese.

The property which foreigners are selling is held by them on 999 year leases, or through virtue of their being members of Japanese land companies such as were organized by the different missionary bodies.

BOOKS TO SUPPORT  
BOLSHEVIST IDEAS

BUCHAREST, July 27.—(By the Associated Press)—Figures enclosed here summarizing the activities of the publishing business in Russia which is purely an enterprise of the soviet state indicate that a great effort is being made to convince the Russian people of the correctness of bolshevist political, social and economic theories.

The soviet publishing house issued from its presses in Moscow and put into circulation throughout Russia during the last 12 months no less than 115,000 volumes covering the fields of economics, politics, history and even fiction.

Aside from the obvious propaganda elements of the volumes on political and economic subjects, the soviet historians have sought to show how the world has suffered because of its hostility to bolshevist doctrines, and in many of the fiction volumes the endeavor has been to prove that opposition to soviet doctrines has warped, limited or distorted individual lives.

## Sonora Reveals Hidden Beauties

PLAYING familiar records on the Sonora, you will wonder at the infinite variety of shading, the myriad details of technique which hitherto have been hidden from your ears. Veritably, the Sonora makes your old favorites seem new again.

Sonora superiority of design makes this possible—refinements such as the laminated, all wood horn, all brass and all wood tone arms and patented sound box. In this combination of carefully determined features lies Sonora distinction.

We will gladly play your favorite records.

# GULBRANSEN

Player-Piano

## Better Music, Quickly Mastered On the Gulbransen

Listen to the playing of a Gulbransen by anyone who understands the correct interpretation of the music being played. Compare it with the hand-playing that you ordinarily hear.

It is no exaggeration to say that Gulbransen playing is infinitely superior, more expressive, more artistic.

Compare the best Gulbransen playing with the best hand-playing. They are indistinguishable.

These are broad statements, but facts.

They are important because they point the way for you to play good music, with your own individuality and expression, but without long study and tedious finger-work.

Remember these points: First, the Gulbransen is easy to play; second, you do the playing, you are in as close contact with the music being produced as is the musician who plays any instrument; third, it is the only player-piano with Instruction Rolls.

# AUTHOR OF THREATENING NOTES IS INSANE

MARTINEZ, Cal., July 27.—Albert Sans of Martinez, who was accused of writing letters to an Oakland, Cal., detective agency threatening the lives of Mabel Normand and Mack Bennett, motion picture notables, and stating that he was the slayer of William Desmond Taylor, murdered motion picture director, was adjudged insane in the superior court here yesterday. He was committed to a state hospital.

## DEATHS

ST. PIERRE—Joseph M. St. Pierre of Lawrence, dropped dead Wednesday while working at the Upper Pacific mill in Franklin street there. He had been suffering from heart trouble for the past six years. Medical Examiner Dr. L. V. Vinton listed as the immediate cause of death due to this cause. Mr. St. Pierre was a native of Canada and prominent in French circles in Lawrence. He went to Lawrence about 40 years ago. He was a member of the Catholic Order of Foresters, Court of St. Anne, and Sacred Heart League of St. Anne. He is survived by his widow, Mrs. St. Pierre, his daughter, Mrs. Odilia Gauvin, Mrs. Moran of Epping, N. H.; Misses Alice and Clara St. Pierre of Lawrence; five sons, Arthur St. Pierre of Methuen, Napoleon, Wilfred, William and Ferdinand St. Pierre of Lawrence; one sister, Mrs. Odilia Bergeron of Lowell; two brothers, Aurel and Jean Baptiste of Canada.

KEANE—Mrs. Margaret (Coleman) Keane, widow of Captain Keane, died last night at the home of her daughter, Mrs. John J. Shannon, 118 Cross street. She came from Ireland about 25 years ago and took up her residence in St. Patrick's parish. She had resided in that community since that time and had always attended St. Patrick's church. Besides her daughter, she leaves one son, Joseph Keane, of New York city and several nieces and nephews.

KERWIN—The funeral of Joseph Kerwin took place this morning at 8:30 from the home of his mother, Mrs. Henry E. Kerwin, 50 Chestnut street, and was largely attended by sorrowing relatives and friends, including a number from out of town. The cortège proceeded to the Immaculate Conception church where at 9 o'clock a funeral high mass was sung by Rev. William N. Norton, O. M. I. The Mass was a native of Canada and prominent in French circles in Lawrence. He went to Lawrence about 40 years ago. He was a member of the Catholic Order of Foresters, Court of St. Anne, and Sacred Heart League of St. Anne. He is survived by his widow, Mrs. Margaret Kerwin, Mrs. Odilia Gauvin, Mrs. Moran of Epping, N. Besides her daughter, she leaves one son, Joseph Keane, of New York city and several nieces and nephews.

NEARY—Mrs. Mary J. Neary, a former resident of this city, died yesterday at the home of her son, Kelen M. Neary, 51 Belmont street, Fitchburg, aged 72 years, 15 days. Mrs. Neary leaves four sons and five grandchil-

lars. Rev. Emile Bolduc, O. M. I. The funeral arrangements were in charge of Undertakers Amédée Archambault & Sons. Mrs. Rousseau is survived by her husband, four sons, Lionel, André, Adelbert and Georges, and three daughters, Misses Jeanne, Peron, and the Misses Lydia and Cécile Mousseau; her father, David Decelle, her step-mother, Mrs. Marie L. (Léassac) Decelle, three brothers, Harry, George and Walter Decelle and three sisters, Mrs. Adelbert Ayotte, Mrs. Joseph Routhier and Miss Lauden Beaulieu of this city.

the reparations situation is disappearing under the influence of the latest reports from Paris which indicate that France and Belgium virtually are immovable from the essential points of their policy in which they differ from Great Britain.

The situation is reviewed gloomily by the Times in an editorial today saying that the British government has attempted with sincerity and good will to bring the whole problem into that region of economic calculation in which common sense may have chance but that the purpose behind this attempt "is being frittered away amid the shallow conventions of diplomatic delays."

The prospect of negotiations dragging on until autumn is seen by the Times, which adds that in the meantime the symptoms in Germany are disquieting and it regards "the crazy movements" of the mark as of less consequence than indications of growing disorder in Germany.

The newspaper admits that it is quite conceivable that Germany's passive resistance may break down as a consequence of the intolerable economic strain but it asks "is there any guarantee that this moment may not coincide with the moment of general collapse?"

"If so," it continues, "how will the allies cope with the problem? Will not Europe then be in an entirely different condition from anything conceived in the hour of victory?"

The liberal press suggests that if the Franco-Belgian replies are along the lines forecast from Paris and Brussels the time will have come for Great Britain to follow her own policy toward Germany and either send her own answer to Berlin or submit the whole question to the League of Nations.

The Daily Mail charges the British government with being the cause of Germany's stubborn refusal to meet her liabilities. What France is doing is the right thing and must succeed. She is quite capable of settling with the Germans without our aid and she won't abandon her plans at the very moment they are on the verge of success."

FRANCE AND BELGIUM  
REFUSE TO YIELD

LONDON, July 27.—(By the Associated Press) The recent tendency in many quarters here to take a sanguine view of the progress of negotiations less.

## ELKS' OUTING WILL

### BE A HUMMER

When ten of the live members of the Lowell Lodge of Elks remarked that they could run an outing that would beat anything ever held by this great organization, they were immediately appointed to go to it. They have some job on their hands because as each year passes it surpasses the previous one in features, fun, and food. Plans are almost complete for the great day, Thursday, August 9th, at the Martin Luther grounds. An automobile parade of 200 or more machines will leave the club rooms at 11:45 and on arrival at the grounds the festivities will begin with plenty of good things to eat. Following the eats P.E.R. chairman R. Raymond Lynch.

come aeroplane stunts by a world famous aviator, a fine long list of sports and stunts including a six round bout between Billy Murphy, undefeated champion, and Phineas Boyce, the well known clever midget, with three good preliminary bouts. Then a Massachusetts Elks championship ball game; 20 exciting and humorous events of sports and games.

Leading Elks, nationally known, from New England and other states will be in attendance, including the governor of the state, the lieutenant governor, Congressmen Rogers and other city and state dignitaries. The outing is for Elks only and admission will be by membership card and tickets. The committee in charge of this year's outing are John T. Durkin, P.E.R. chairman R. Raymond Lynch.

**CARD OF THANKS**  
To those who by their acts of kindness, expressions of sympathy and offerings of floral tributes and political bouquets, served to lighten the burden of our grief in the death of our dear husband and father, Joseph Dion, we wish to extend our sincere thanks and heartfelt gratitude. To the neighbors and fellow-workmen of the deceased, we are specially grateful. Such evidence of true Christian spirit we will ever cherish in loving remembrance.

About. These young men had a Cadillac touring car, the registration of which corresponded with the registration of the car used in the hold-up of the Penn Co. emphytes. But the Cambridge officers were sure of the men they wanted, and the two under question were not held.

Two Arrests Here  
About midnight Monday the same two young men were picked up in Lowell as they were driving through the city, as two of the Lowell officers recognized the number on the touring car as corresponding to the number broadcasted by the Cambridge police. They were taken to the police station and held overnight as suspicious characters, and the Cambridge police were notified.

Tuesday morning Inspector Thomas F. Coady of the Cambridge police came to Lowell and again questioned the young men. Again they denied any knowledge of Gallivan's whereabouts, and upon Inspector Coady's suggestion they were brought before the court and released.

But Inspector Coady's long trail of Gallivan was finally ended yesterday afternoon when he spotted the youthful bandit leader walking in line at a ticket office in the South station in Boston. Coady approached Gallivan and covered him with his pistol.

Warning the youth that he would shoot upon the least resistance, he searched for weapons, handcuffed him, and took him to police headquarters. There Gallivan denied knowing anything about the holdups.

Going To New York  
Gallivan, who has been absent from his home in Cambridge for some time, the police claim, told them that they got him just in time as he was on his way to New York. In his pocket was only \$30. Gallivan said he knew that the police were searching for him in Boston Monday, and he thought the trail was getting too hot and decided to beat it.

Besides being positively identified yesterday afternoon by employees of the Penn Metal Co. as the youth who covered them with a gun last Friday, Gallivan was also identified yesterday by girl employees in the factory of the American Optical Co. in Boston, as one of the youths who held up the paymaster there on April 6 and robbed him of \$100.

Other Crimes Alleged  
Gallivan is suspected of several other crimes and he is believed to be implicated in the slaying of Paymaster George A. Willis of the Boston News Bureau last Dec. 15. Witnesses of the shooting will be taken to the East Cambridge jail today to see if he can be identified as one of the men who held up Willis.

Besides being wanted for the holdups of the Penn Metal company and

### MEANS TO INCREASE COTTON CROP SOUGHT

TALLULAH, La., July 28.—(By the Associated Press)—Entomologists at the United States department of agriculture experiment station here hope to see, as a result of their researches, the enactment of uniform state laws to compel the dusting of all cotton with calcium arsenite from airplanes or by auxiliary machinery, whose planes cannot be utilized. The dusting, it is claimed, would result in the maximum control of the boll weevil, which has caused the loss of untold millions of dollars to the cotton growers of the south.

The boll weevil has been controlled on dusted acreage, it is stated, but untreated acreage has permitted the production of the pest and a continuation of devastation. The weevil depends primarily upon the cotton plant for food, and the dusting of its entire food supply, according to the experts, will permit maximum control. This can be done only through the compulsory treatment of all cotton.

and legislative acts are regarded as necessary for a successful campaign. The entomologists are using airplanes here in their experiment, after having tried many machines for distributing dry calcium arsenite and the poison in solution. They declare the dry poison offers the greatest possibilities of control, as it can be broken up into particles fine enough to reach all parts of the plant, which is not possible with the water globules.

One of the greatest problems facing the experimenters was the determination of a proper distributing apparatus. An apparatus that depends upon the velocity of the air now is in use and the entomologists believe the distribution problem has been solved. It is known as the Venturi tube, a horn-shaped contrivance without any exterior devices to impede the air current. At the rear end are pieces to break up the poison into four streams which flow outward and downward. The poison is supplied to the tube through a slide valve in a hopper located in the cockpit of the plane.

From five to six pounds of calcium arsenite are used on each acre at an average cost of \$1.00, and it is believed, the airplane will save at least one pound to the acre, representing an enormous reduction in the aggregate dependent upon the fishing industry.

### CLAIM FOR OVERTIME PAY TWO POLICEMEN SLAIN

Employes of Ash and Waste Collection Department File Claim

A claim for overtime pay for work done by employes of the ash and waste collection department of the city between the dates of February 2 and June 9, was filed with the council committee on claims and the city collector last night at a meeting at city hall. The total amount of money involved is approximately \$3000, claimed by 60 employes whose work has carried them beyond the stipulated 48-hour week. The claim was filed on behalf of the department men by Attorney James J. Bruin, who outlined the reasons for their petition before the committee.

One committee member, Councillor Daniel Cosgrove, announced his approval of the claims, which, however, were taken under advisement.

The committee in private session heard petitioners or their representatives in the matter of claims filed against the city by the following individuals: James Hamel, Mrs. Katherine Kelly, Theresa G. Lavery, Mary McArdle, James J. Brown, Thomas J. Syllyan, William Nelligan, Katherine Kierce, Pierre Dussault, Louis W. Richards, James M. Middaugh, Thomas Leary, Mrs. Hattie Gallagher, Josephine Gauley and Michael Farley.

Gas attacks as a means of overcoming an enemy are recorded as far back as 150 B. C.

CHALIFOUX'S CORNER - LOWELL

led over Queensboro bridge and ended at 64th street and Second avenue.

The screams of the woman drew another patrolman to the scene but the assailants escaped. The patrolmen were Charles Reynolds and Frank Romandell. The shooting occurred not far from the society colony established on the upper East Side by leaders of New York's "four hundred."

Patrolman Frank Sussman, who first heard the woman's screams, ran to the patrolman just as they overtook the taxicab. They told him they needed no assistance, however, and as he turned away he heard two shots and whistled in time to see his comrades fall. He said he did not know whether

the woman was screaming for help or because she was being chased by the police.

Witnesses said the man fired both shots, drawing his pistol as soon as the taxicab stopped and giving the officers no chance to reach for their weapons. They said he then pointed his pistol at the taxi-driver, shouting, "Go on, or I'll give it to you."

Complete with operating theatre, kitchen and saloons, a derelict hospital train in Mesopotamia now serves a native sheik as a Turkish bath.

## SHRINKING BIRTHRATE ALARMS FRANCE

Likened to that of the little boy who grows slowly while all his companions develop like weeds. In the 18th century France had half the population of Europe; at the end of the 18th she had only one fourth, and today she has little more than one-tenth.

Since 1871 deaths have exceeded births, and only immigration has saved the race from rapid extinction by a loss that frequently was a quarter of a million a year.

Whatever the reasons for the half century of decreasing birthrate, the present shortage of living quarters, the vicissitudes of life, and the lowered moral standards are blamed today by students for the condition that persists in spite of a really national campaign for more children.

The increase of 160,000 in population for 1922, small as it was, aroused the hope of the government and the public, for it was generally believed that the rush of war-tired soldiers and women, anxious to marry and establish homes, was the turning point. They have been disappointed. The net excess of births over deaths the following year was only 9000 and the results of last year still being tabulated are rather dreary by sociologists and economists.

President Millerand, not long ago, spoke of the birth rate question as "that of life itself for France." His efforts, he said, were devoted to furthering the creation of homes and the rearing of children.

France's plight in a world of war is in

the hands of the printer and will be returned to the election commission by August 1. This new list will be in operation until August 1, 1924. Lowered age is to have at least 1200 names on the jury list, representing approximately one-tenth of its total population.

## INFECTED TOOTH Said to Have Caused Roosevelt's Death

One of America's leading Woman's Magazines recently carried the following remarkable article headed

### Theodore Roosevelt's Death

Here follows the opening paragraph:

"How expressive of his personality was Roosevelt's smile! Whether your acquaintance with him was personal or only through photographs, the attribute of Roosevelt's that you remember most clearly is surely his smile. Those flashing white teeth won him millions of friends—yet one of those teeth killed him."

While the direct cause is said to have been what is known as "pulmonary embolism," or blood clot on the lungs, the trouble which cost the life of the great American had its start in an abscessed tooth 20 years ago, say the doctors.

There is no telling what troubles one is inviting when neglecting the teeth. The safe way is to allow a competent dentist to examine them every little while. This will safeguard you against complications.

I make no charge for such an examination—and my fees for work done are very reasonable. Better be safe than sorry! Come in!

Read the following testimonials from pleased patients:

J. HENRY FAGAN, D.D.S.:

Dear Doctor—I take pleasure in stating the upper artificial plates which you inserted for me are giving first-class satisfaction. They feel and look so life-like that they are scarcely noticeable from natural ones. I can highly recommend your work to all desiring first-class dentistry.

S. B. WATSON, Westford, Mass.

J. HENRY FAGAN, D.D.S.:

Dear Doctor—Wish very much to recommend your painless method of extraction. Had all my upper and lower teeth out at one sitting and never felt a thing.

FRANK O. GRADY, 302 Gorham St., Lowell, Mass.

J. HENRY FAGAN, D.D.S.:

Dear Doctor—It was with pleasure I wrote of the satisfaction of the work which I recently had done by you. The restoration of teeth in my case is as perfect that I cannot distinguish them from the natural. Your method is superior to all other methods, and I would recommend it to anyone desiring teeth restored.

## LIGHTNING HIT CHURCH GIRLS ASK PRES. HARDING

### FOR MILITARY CAMP

Pastor and Two of Congregation Killed in Church at Nyireghyha

BUDAPEST, July 27.—Lightning struck a Protestant church at Nyireghyha, which is located near the famous vineyards of Tokay, during the service Sunday and killed the pastor, who was standing at the altar, and two of the congregation, who were singing hymns. The bolt ran along the floor of the church, burning the heavy leather boots of many of the congregation, who were in national costume.

WASHINGTON, July 27.—By the Associated Press.—A personal plea to President Harding from "two girl pals" in Iowa for establishment of government training camps for girls where there would be "real training as shooting, drills and everything, similar to the boys" reached the war department yesterday via the White House in the absence of the president. And it drew a prompt answer from Maj. Gen. Da-

vis, adjutant general of the army, that the "pals" had raised "some important questions which you may rest assured will be carefully studied."

The letter served to disclose that general staff officers are giving serious thought to plans for supplementing summer work among the boys with similar opportunities for girls. As yet the project has not taken definite shape.

Following is the letter to President Harding:

Charles City, Iowa, July 14, 1923.  
Dear President Harding:

We are two girl pals and last night at the movies we saw you running a tractor and stacking oats. We thought if you could do that, you might read a letter from two American girls.

"We have planned to write to you for a long time, but did not have courage enough until we saw you last night."

"There are boy training camps all over the United States, but we have never heard of a government training camp for girls. Why is it girls can't have one, too? It is sure rotten luck to be a girl, but as long as we are we've got to make the best of it....

"What is it we can't have a chance to do out in the sun as the boys? If ever the chance arose, the girl U. S. army would and could help out, besides helping the United States, it would help the girls. Girls that have no home become 'tuff.' A training camp would be a fine thing for them. Girls can learn the handle arms the same as boys."

"There are girl scout camps around here, but girls over 18 years of age are not admitted and besides, we'd like real training as shooting, drills and everything similar to the boys."

"From two pals,"

"GALLETTA CAREY,  
PERCY PAYNE."

"Please answer soon."

## AMUSEMENT NOTES

THE STRAND

Richard Barthelmess and Dorothy Gish, "Foxy," one of the most gripping sex stories ever told, is the headliner for the week-end at the Strand. You must see it from beginning to end to fully realize its worth. Then you will admit it has no superior. The second feature presents dainty, vivacious Gladys Walton in "The Town Senator," a bit of a political satire. Gladys who was a bit of a "blue" and a panic in her own home town. We won't tell you more. See the picture.

HALLOWE THEATRE

"Outlaws of the Sea" is a timely picture. It deals with the rum-runners, operating between Miami and Bimini, an island off the Florida coast, and is splendidly acted by Marguerite Clark, Pierre Gordon and Gordon Standish. The story is one which blends appealing moments with big scenes. The plot follows the men who run the water for much of the action takes place there. What happens to Polly Gringshaw (Marguerite Clark) and her father might happen to anyone in the same circumstances. The inside methods of the bootleggers are shown.

"I Am the Woman" is the third picture, starring Texas Guinan, the female Bill Hart. Leo Maloney in "His Own Law," a good comedy and Paths News complete the program.

# Radiographs

When girls go to college these days, not all of them want to learn cooking and other household cares, as this picture testifies. Here, students at Hunter college, New York, are delving into the mysteries of radio. Mr. A. Turner is telling them all about it.

## NEW TUBE FOREGOES

### AMPLIFICATION

The heart of the radio set—for transmitting and receiving—is still to be raised to perfection. That is, the tube itself. In the last two years, during which radio has met with the greatest popular response in its history, the tube has been subject to change about as often as any other part of the radio apparatus. In fact, more so, for scientists have realized that this, the most important part of the set, was where they should go for improvement.

Immediately upon expiration of the patent rights on one form of tube, the market began to be invaded by other forms, some of which still exist, while others have died a quiet death. Various kinds of dry battery tubes, gas tubes and vacuum tubes now exist, and each has its individual hook-up, by which it is supposed to be most effective.

The largest form of tube is what is termed the "alkali vapor tube," brought out by Bush A. Brown, associate of the department of electrical engineering, and Charles T. Knipp, head of the physics department of the University of Illinois. It is a detector tube made so sensitive practically to obviate the necessity of using amplifying tubes.

The injection of a potassium sodium alloy into the tube during the process of evaporation is said to be the whole principle on which its construction is based. It is a complicated and extremely delicate process, however, and is therefore costly.

**Characteristics**

According to its inventors, the tube has the following characteristics and advantages.

1. It acts as a sensitive detector at any plate voltage up to 60 volts, although it produces best results between 8 and 10 volts.
2. It is more than three times as sensitive as the ordinary detector tube.
3. Adjustment is less critical, therefore much easier, than on an ordinary tube.
4. Besides being more selective in wave length and steady, the tube is said to give "absolutely distortionless reception." This has long been one of the weaknesses of radio reception. The correction of which will be received with glee by every radio fan.
5. The voltage is higher than on the ordinary tube to raise the temperature of the filament to a point at which the potassium sodium alloy can become active.

**Long Distance**

When the new tube was tested in the vicinity of Urbana and Champaign, Ill., the receiving fans who used the tube in their sets reported having heard Kansas City, Atlanta, Schenectady and Pittsburgh on an ordinary regenerative hook-up on an amplifier. And with the antenna 12 feet above the ground and a foot long!

By raising the antenna to a height of 40 feet, broadcasting stations as far away as Los Angeles could be heard even without a "B" battery and with the plate circuit return connected to the negative filament.

Even this tube is not the final word in perfection of the "heart" of the radio set, for what radio fans want is not only a highly sensitive and efficient tube, but one that is cheap and more durable.

After the interior of the tube has been brought to the zenith of perfection, perhaps, inventors will seek to produce methods by which it can be produced in larger quantities at lower rates.

Are your hands rough and hard?

The regular use of Resinol Soap is frequently all that is required to overcome such a condition, and produce that whiteness and velvety softness so much to be desired.

If, however, the hands are in very bad condition—if they crack open and smart after being in water—use Resinol Ointment as follows:

Soak the hands freely with Resinol Soap before retiring. Do completely. Rub in Resinol Ointment gently but thoroughly and cover with old gloves. In the morning bathe again with Resinol Soap. In most cases a few such treatments produce very satisfactory results.

Ask your druggist for the Resinol Products.

THE STORE FOR THRIFTY PEOPLE

# JULY MARKDOWNS

Bear in mind that no greater values are offered at any season of the year than you find here during the July Markdowns

Sales may come and sales may go, but we maintain that no house in New England presents in a store-wide bargain movement such remarkable reductions in seasonable merchandise.

Operating this mid-summer underprice carnival, as we have done for several years, we've learned that a selling of this sort is not a successful one from our standpoint, neither is it a satisfactory one from yours as a purchaser, unless you can come into the store feeling that no matter which section you turn to, or what your buying thoughts may be, we are ready for you with an offering of economy.

**FOR INSTANCE**—You are thinking of a Sweater; we're offering \$4.95 and \$5.95 grades at \$1.99—or a pair of White Canvas Pumps that usually sell at \$3.50, now they are \$1.45 a pair. Then for the week-end trip there's \$10.00 Suit Cases for \$8.00—also Mary Garden Compacts for 50c. In Wash Goods there's Imported Ratine for 69c yd.—and in the Children's Section on the Third Floor we've \$2.50 and \$3.98 Dresses of organdie and muslin at \$1.98. All of which you'll find with hundreds of other Bargains Marked by the Pink Cards.

In connection with these July Markdowns we've a Special Sale of a Stock of Men's Footwear lately purchased at a sacrifice.

BLIND MAN POINTS WAY

FOR THOSE WHO SEE

By N.E.A. Service

UNION CITY, Mich., July 27.—A blind man who knows the way to others who can see!

That's the rather unique position of Tom F. Robinson, one of the outstanding personalities of this place, whose influence and loyalty are exceptionally far-reaching.

How does he do it? Well, he accomplishes it all through the columns of the Register Weekly, Union City's only newspaper, of which Robinson is sole owner, publisher and editor. And he performs his tasks in a way which would be a credit to people with less handicaps in life.

For 10 years now "Tom," as he is known to his many readers and acquaintances, has been totally blind. But the loss of vision has never tended to discourage him. In fact, the affliction has only served to spur him on to greater efforts.

Through his editorials, Robinson has grown to be a real educational force to this little slipp of a town. A clear, forceful writer, he is always ready to advocate and support through his paper any project promoting growth and development.

At work, he keeps in close touch with every branch of endeavor in his plant with a sureness that is not always achieved even by those with unimpaired eyesight.

He has a Braille writer for the blind and on this he makes notes for his own reference. These he can readily read by touch. He also runs a type-writer with speed and accuracy. The "copy" for publication has his personal supervision.

One of his chief accomplishments is the successful campaign for establishment of the new municipal hydro-electric power plant here.

EX-CROWN PRINCE PLANNING ESCAPE

LONDON, July 27.—That the former German crown prince, Frederick William, is believed to be planning his escape from Wiesbaden is asserted by the Antwerp correspondent of the Daily Mail. There is curiosity, some anxiety, throughout Belgium, he says, owing to confidential information regarding the comings and goings of various agents between Germany and Wiesbaden, and it is an open secret that the prince wants to return to Germany. He is believed to be in constant communication with the German nationalists and their organizations throughout the fatherland.

MARRIAGES AND DIVORCES

WASHINGTON, July 27.—The department of commerce announced that according to returns received by the bureau of census, there were in Massachusetts, for the calendar year 1922, 32,653 marriages performed and 3,268 divorces granted. For the calendar year 1921, the last year for which these statistics were collected by the bureau of the census, 34,556 marriages and 2,336 divorces were reported.

The statistics of marriages for 1922 were furnished by the secretary of the commonwealth and those of divorces for the same year by the clerk of the superior court and the register of the probate court of each county. The figures are preliminary and subject to correction.

## AFTER AMATEUR TITLE

Bobby Jones, Golfer Extra-  
ordinary, Hopes to Equal  
Chick Evans' Feat

BY BILLY EVANS

Bobby Jones, golfer extraordinary, thinks this is going to be his big year. The Atlanta phenom has started it in the most approved style by winning the national open championship.

In winning the golf classic, an honor expected to fall to the professional, Jones has inscribed his name among the immortals in amateur golfdom.

Only three amateurs in the history of the event, Olinet, Evans, and Travers, have ever won the open title.

Jones, spurred on by his brilliant play in the open, is now and feeling that he has distanced the Jimies. He has always pursued his ambitions, is set on winning the national amateur championship.

It is the ambition of Jones to win both the open and amateur event the same year thereby equalling the record held by only one other amateur, Chick Evans.

Chick did in 1916.

Back in 1916, Evans with a score of 258, the lowest ever registered in an open championship won that event, came right back by winning the amateur title, eliminating the ever-dangerous Robert Gardner in the final.

4 and 3.

No other amateur player has ever topped the trick. In 1918, Francis Damm snared the gold ball world by winning the open, then went fishing in the with Bay and Vernon. He was not equal to winning both events, although he proved that his unexpected victory in the open was no fluke by

winning the amateur title the following year.

When Jones entered the national open, it was also his intention to play in the western amateur championship at the Mayfield club, Cleveland. Winning the title caused him to change his plans entirely and he decided to play in the western event.

Maybe He Will

Feeling that his play in the western amateur would not be up to his game because of the severe strain he had gone through in the national open, and not desiring to detract from his hard-earned honor, he passed up the Cleveland event. It is his intention to rest for a few weeks and then point his game for the national amateur, scheduled for the week of Sept. 19-23 at the Pheasant Country club at Chico.

Jones, in winning the national open, justified the opinion of many of the golf experts who have insisted that his game is without flaw. The star has been to the standard for several years. He finally arrived.

Three years ago he finished eighth in his first open tournament. In his first start he was fifth. Last year at Shubie he tied for second, one stroke away from Gene Sarazen, the winner. He had nothing to shoot at but first place this year and he delivered by winning at Lansdale.

Jones is a remarkable golfer. For a number of years he has been second in the list of the amateurs, yet something has always turned up to keep him from winning. This year he is out to beat the fix for all time by taking down both titles.

Golf is a funny little game. We shall see what we shall see.

Maybe Bobby will and maybe Bobby won't.

Good Morning  
Mr. Garage Man!

The Confidence of your customers is a valuable business asset. We don't know of any better way to earn it than by recommending Converse Compression Tread Tires. Delaney's Garage, for instance, writes:

"Converse Tires have created a great demand for themselves on their merits and unique appearance and have an industrial record in creating many friends for us. We would not consider our garage complete without a liberal stock and have yet to have a customer find fault with the mileage or service Converse tires have given him."

## FIRE IN MIDDLESEX STREET STORES

A threatening fire was discovered at 11:30 last night in the cellars of the stores numbered 250 and 252 Middlesex street, the former occupied by McKevey and Jenkins, men's furnishings, and the latter by Ed's Tobacco shop. An alarm from box 24 was rung in at this time by a passer-by, and when the fire apparatus arrived on the scene it seemed as though the entire building was doomed for the flames lighted the cellars of the two stores and heavy smoke poured out of the broken windows. The firemen forced their way into the cellars of the two stores, however, and soon had the fire under control. The all out signal was sounded at 11:54 o'clock.

Although it has not been definitely decided what started the fire or where it originated, it is believed that a lit cigarette fell into the cellar of the tobacco store and set fire to the stairway. The cellar of the tobacco store was burned out and the cellar of the McKevey & Jenkins' shop was slightly damaged. Smoke, however, damaged the stock in the stores and also the shoe store of Max Weiss, numbered 248 Middlesex st. The amount of the damage could not be ascertained today as the storekeepers had not completed an inventory of their stock.

## RESTORED TO GOOD HEALTH MOTHER AND CHILDREN GRATEFUL

In East Boston, Mass., at 23 Lamson Street, a contented family of three children and the mother live, daily thanking in silence the kind neighbor who helped them when they were sick. Mrs. Nellie Woodford is the mother and she writes the following letter to Dr. J. F. True & Co.: "Having heard about your medicine from my neighbors and druggist, I wondered if your Dr. True's Elixir wasn't what I needed. I was a hard-working woman, working six hours every day for the Penn Realty Trust Company in Boston. In doing this work I use a lot of strength. Besides this, looking after my husband and the care of my three children wore me out.

"I always had one special doctor for myself and the children, but he was out of town when I was sick. I took medicine from the druggist which my friends brought in, but nothing did any good. My bowels were out of order, my breath bad, and I was shaky all over. Worst of all the terrible headaches came. It seemed I had suffered years before your Dr. True's Elixir was brought to me by a neighbor.

"After a short time I began to cheer up and be myself again. My bowels were soon in order and I noticed that the dizzy spells had left me. I think your Elixir wonderful. I feel full of

## EX-PRES. WILSON SOUNDS

## NOTE OF WARNING

BOSTON, July 27.—(By the Associated Press) Former President Woodrow Wilson, writing under the caption "The Road Away from Revolution" for the August number of the Atlantic Monthly, sounds a note of warning that our civilization cannot survive materially unless it be reassembled spiritually.

This is the first time since his illness that Mr. Wilson has made public his views upon present-day problems in the United States and throughout the world. They will be preserved in permanent form between covers.

"In these doubtful and anxious days when all the world is at unrest and look which way you will, the road ahead seems darkened by shadows which portend dangers of many kinds, it is," says the one who commanded the ship of state during the World war, "only common prudence that we should look about us and attempt to assess the causes of distress and the most likely means of removing them."

Then avoiding the partisan as he analyzes the existing state of American civilization, the writer goes briefly to the root of the matter by making essential what is a religious appeal for a better understanding between the "haves" and the "have-nots."

"Real unrest for the universal unrest," he asserts, "lies deep at the source of the spiritual life of our times and leads to revolution."

The cause of the Russian revolution, which he calls "the outstanding event of our kind in our age" was, in his view, a "systematic denial to the great body of Russians of their rights and privileges which all normal men desire and must have if they are to be contented and within reach of happiness."

What has this to do with America?

"It was against capitalism," he declares, "that the Russian leaders directed their attack... and it is against capitalism under one name or another that the discontented classes everywhere draw their indictment."

Everywhere, no says, there are thoughtful men who believe that capitalism is indispensable to civilization, but he goes on to ask: "Is the capitalistic system unimpeachable?"

"Is it not true," the inquiry continues, "that capitalists have often deemed it expedient to regard the men whom they used as mere instruments of profit, whose physical and mental powers it was legitimate to exploit? Ought we not

to seek a way to remove such offenses and make life itself clean for those who will share honorably and cleanly in it?"

The world has been made safe for democracy. There need now be no fear that any such mad design as that entertained by the insolent and ignorant Hohenloheans and their counselors may prevail against it. But democracy has not yet made the world safe against irrational revolution. That supreme task which is awaiting less than the salvation of civilization, now faces democracy, insistent, imperative. There is no escaping it, unless everything we have built up is presently to fall in ruin about us; and

the United States, as the greatest of democracies, must undertake it.

"The road that leads away from revolution is clearly marked, for it is defined by the nature of men and of organized society. It, therefore, behoves us to study very carefully and very carefully the exact nature of the task and the means of its accomplishment—the sum of the whole matter is this, that our civilization cannot survive materially unless it be redeemed spiritually. Here is the final challenge to our churches, to our political organizations, and to our capitalistic

PARIS, July 27.—The Belgian government has conferred the decoration of the Grand Cross of the Order of Leopold, on Roland W. Boyd, upon the occasion of his retirement as an official representative of the United States on the reparations commission. Mr. Boyd's resignation was announced July 1 to take effect Aug. 1.

BAPTISTS TO CONVENE IN TORONTO STOCKHOLM, July 27.—(By the Associated Press)—Toronto, Canada, was chosen today by the Baptist World alliance as its meeting place five years hence. The choice was made before final adjournment of the present congress at noon today, after representatives of the Baptists of P. C. and Atlanta, Ga., had withdrawn in favor of the Canadian city.

## PUBLIC SERVICE BOARD

Plans for Relocation of Tracks

Not Approved—Water Bill

## Abatements

The board of public service does not see its way clear to expend \$2200 for street work necessary in conjunction with the plans of the Eastern Massachusetts Railway Co. for the relocation of the curve at the junction of Merrimack and Dutton streets, used principally by Highlands and Broadway line cars and has sent the plans back to the city council without approval.

Requests for abatements of water bills and petitions for street, sidewalk and sewer repairs were received in unusual number at the meeting by the board late yesterday, which was of nearly two hours' duration.

Petitions for water bill abatements were received from the following persons:

Joseph Fay, for property in Willis street court, the Maxwell estate, 718 Lawrence street, the Gage estate in Wilder street; Mrs. Arthur J. McPherson, 17 Anderson street; Mrs. Frank Delle, 972 Bridge street; Miss Nellie Gilroy, 61 Butterfield street; James Farley, 50 Charles street; Henry James, 250 Mt. Vernon street; Charles Mouloughlin, 24 West Fourth street; Ophelia Moraskan, 7 Cady street; Israel Greenberg, 121 Railroad street; Ellen Gaffney, 22-24 Walker street; Mary A. Collins, 55 Commonwealth avenue, and John Dolaney, 116 Fourth avenue.

Councillor Frank K. Stevens asked for repairs in Umpachine street, in School street near the railroad bridge and the sidewalk in Umpachine street, also the catch basin at Richards and Beacon streets. These were referred to the respective departments.

Councillor Thomas McFadden asked for the location of arc lights to light the Lindberg street bridge and the engineer was instructed to go ahead with the work.

Councillor Fred A. Sallier was present and presented requests for repairs in the following streets: Watson street, from Whipple to Lawrence street, West from Garham to Central street; Newhall street, from Crossby to Chambers street; Kinsman st., from Whitmore to Chambers street; Livingston street, from Whipple to Chambers street, and for abatements in Cedar street. All were referred to the proper authorities.

A representative from the Reddick Skin Co. of Boston, appeared before the board to interest the members in street and danger signs and was referred to Engineer Kearney for a conference at a later date.

A communication was read from Lowell next of the American Legion asking that the junction of Smith and Powell streets be named for Manuel W. Peary, and the junction of Charles and Central streets be named for Manuel Martine. Both men were killed in action during the World war and the Legion's activity in their memory was in line with similar action taken through all parts of the city.

A petition from Max Katz to open Middlesex street for the laying of a steam pipe from the Hamilton mills to Old Fellow's building was referred to the new department for an opinion. It is understood that an arrangement had been made with the mill authorities to level the building from the mill.

The Lowell Electric Light Corporation was given final authority to install 42 arc lights on the First Street boulevard and First street, which will make a continuation of the Bridge Street lighting through the boulevard.

A bill presented by the Heslin Construction Co. for the building of granite sidewalks in Adams street was ordered held up pending a view from the board.

**INVETERATE GOLFER**

Master Recommends Divorce

for Husband of Dorothy C.

Hurd, Ex-Champion

PITTSBURGH, July 27.—Jack V. Hurd, prominent clubman, yesterday was recommended a divorce from Dorothy L. Campbell Hurd, ex-woman golfer champion of the United States, Great Britain and Canada, in a master's report filed in common pleas court.

Evidence introduced at the hearing indicated that Mrs. Hurd was an "inveterate golfer," who preferred outdoor life on a golf course to the duties of housekeeping. "I believe it certain," the master said in his report, "that she loves golf and indulges in it to the exclusion of her marital relations, and that she is determined to discontinue the latter."

About two years ago Mrs. Hurd filed a petition for divorce, but when she failed to press her action Mr. Hurd filed a counter-petition.

## ON TRIAL FOR MURDER

State's Motion for Change of Venue in Trial of Garrett

Brothers Pending

CUMBERLAND COURTHOUSE, Va., July 27.—The state's motion for a change of venue in the trial of Robert O. and Lurkin C. Garrett, brothers charged with the murder of the Rev. Edward S. Pierce, was still pending for argument when court convened today for the second day of the trial.

The defense was prepared to introduce additional affidavits to refute those presented by the prosecution in support of its contention that the Garretts control the county's legal and political machinery and therefore the state could not attain an impartial trial of the case in Cumberland county.

**PRIEST APPEALS TWO-YEAR SENTENCE**

DENVER, Colo., July 27.—Father Walter A. Grace, Denver priest, convicted by a jury of forgery in connection with an application for a government permit to ship liquor into Colorado, was sentenced to two years in the United States penitentiary at

Leavenworth, Kas. A stay of execution was granted when his attorneys gave notice of appeal to the United States circuit court of appeals and the cleric was released on bonds of \$5000.

Father Grace still faces charges of illegal possession and transporting liquor and of conspiring to violate and evade the Volstead act.

Federal Judge J. Foster Symes in pronouncing sentence said:

"The court can hardly believe that a man in the position and standing of Father Grace would do what he has been convicted of doing. However, the jury has found him guilty, and this court can but accept that verdict and provide punishment."

use of armed forces America shall find her assurance in a navy of the first rank.

"We were building two years ago at a rate that would have placed our armed sea power in excess of any other power, but in conviction that armament cost and competition was leading to menacing national burdens, we invited an international conference to fix limitation," the president added.

"We asked equality with the first rank for ourselves and were accorded it. Let us hope our congress, with the cordial sanction of the American people, will continue that first rank.

I believe our obligation to the world

means the most exacting restriction of our maintenance within the maximum limitation fixed by the conference and I believe our clear duty to ourselves

is to maintain the equality provided in that maximum until a new baptism of international conscience prescribes a joint action toward reduction or complete abolition."

In addition to his observances on the question of national power, Mr. Harding said that "those of us who think we know a great lot about newspapermaking, may learn some very simple fundamentals by going to Alaska."

"I found myself," he continued, "involuntarily doffing my hat to the editor and publisher, who succeeds in maintaining a daily issue in a town of eight to twelve hundred persons where the circulation maximum cannot exceed two to three hundred copies. I refrain from an attempted analysis of the relation of the value of advertising to its cost, but the community value of the publication will remain unchanged."

"There is a limited reflex of the big news of the world, with a larger relative regard for pugilism than world politics, but human interest is fairly satisfied with the tabloid story of world events. Doubtless the Alaskan community is quite as well informed mentally with its restricted news diet as are some of us who find our newspaper way. If we read our newspapers fully, through elaborated and expatiated stories of crime and scandal, and wander through a haze of speculative politics.

A man came into this office some time ago and made the above statement. He said he had two sets of teeth and could not eat with either of them. I made him a set and he came into this office later and said they were the best teeth he could keep in his mouth while eating. In fact he had new hands and did eat apples without the least trouble.

The reason for this is my particular method of taking impressions of the shape and relation of the jaws and correct articulation of the teeth.

Now, I can make you a set of teeth just as good as his. If you will drop in or write me for I make a specialty of difficult cases and will examine your mouth and give you advice free of charge.

ing for the relief of congestion at Boston. In the past dealers have hesitated about getting coal via Providence because of the greater cost.

If the proposed ruling had been in effect during the past week or so one coal dealer who was receiving a boatload of coal at Fall River might have saved \$250 if he ordered it via Providence and received it in Lowell with the elimination of the switching charge of 60 cents per ton.

The chamber took the matter up with officials of the New Haven road, declaring that if they would eliminate the switching charge it would mean that about half the coal received in Lowell would be delivered via Providence, which would amount to approximately 6,000 tons a year.

The editorial officials investigated the proposition locally, interviewing dealers and industries in order to get estimates of the amount of coal which might be ordered via Providence in the event of the elimination of the switching charge.

Notes has just been received from the New England Freight association rail to Lowell.

It would be advantageous for Lowell to have equal rates via Boston and Providence so that in case of necessity both entrances might be used freely to avoid congestion. Dealers desiring to avoid congestion at Boston last winter and refusing to pay the increased charges via Providence ordered coal via water to Portland, Me., and

## HIRAM JOHNSON AND MAGNUS

As a result of the speech of Senator Hiram Johnson on his return from Europe and the recent election of Magnus Johnson as senator from Minnesota, the republican party may feel that one of its chief embarrassments in the coming national campaign will be "too much Johnson." Possibly Hiram and Magnus may get together and frame a national platform that will command the support of the republican party. Stranger things have happened. Moreover, the two Johnsons will have little difficulty in forming an alliance with Senator La Follette, who is another menacing factor in the republican imbroglio.

Senator Hiram Johnson had a great reception in New York on his return from Europe. He was the honored guest at a banquet attended by 500 prominent men of New York, while nearly as many sat in the galleries and lisped to hear what the distinguished California senator had to say in regard to conditions in Europe.

Those who felt that the senator might have changed his views in regard to the League of Nations and the World Court of Justice soon found that they were grievously mistaken. Senator Johnson is as strongly as ever opposed to our taking any active part in the affairs of Europe. He believes that the question was settled in 1920, but that as a result of propaganda it is coming up again, and he wants to see it settled finally so that there will be no doubt as to the attitude of the American people in regard to the European entanglements, feuds, jealousies and alignments looking to future wars.

Describing conditions in Europe, he said he found distrust, suspicion, hostility and hatred; and from this he concludes that the only safe course for the United States is to keep out of European turmoil, strife and controversies; and he holds that we can have no higher resolve than that of maintaining the distinctively American policy of keeping the country free from foreign entanglements that may result in war. Nevertheless, he claims that the United States should have a foreign policy and a commanding voice among the nations of the earth. "Since when," he asked, "has America become so weak and so timid that its foreign policy can be referred to only in conjunction with other nations?"

Needless to say, Senator Johnson was applauded to the echo for the reason that his audience was largely made up of those who believed in the policy that he has been advocating ever since the World war and which he emphasized in his speech as a result of his visit to Europe.

Contrary to expectation there was no presidential boom launched for Senator Johnson, but his speech placed him upon a platform that may prove quite popular in the next republican convention, inasmuch as President Harding has receded from his advocacy of the World court, in deference to public sentiment, as he found it on his western tour. Chairman Adams of the republican national committee may now subside and leave the question of a national platform to the Johnsons-Bryan and Magnus and if they can't agree, they can call in Henry Lincoln Johnson, the negro political leader and national republican committeeman of Georgia, who last at present is kicking over the party traces quite as vigorously as his namesake from Minnesota.

## BIG FAMILIES

The Ormsby quadruplets, who became nationally famous as dime museum attractions in 1922, will be living. It is said by authorities that this is the only case of all four members of a quadruplet birth surviving into maturity.

Their mother, Mrs. Josephine R. Ormsby, is farming at the outskirts of Chicago.

She was 26 years old when she married Charles Ormsby, plumber, in 1911. Her children came as follows:

1895—A boy.  
1896—Twins.  
1897—A girl.  
1898—Twins.  
1899—Triplets.  
1900—A boy.  
1901—Quadruplets.

Fourteen children in seven years! The quadruplets consisted of three sons and a daughter. They packed the dime museums for a couple of years and thereby brought considerable wealth to their mother.

The birth of a baby girl to Mrs. Mary J. Barton of Kellyville, N. H., recently made her the mother of 26 children at the age of 40.

You don't often hear of such big families in our generation. In grandfather's day, a family of 20 children would not have attracted much attention for a perusal of the average family Bible will disclose that five or six children were considered a small family in Civil war times and, while offspring totaled 29, only occasionally 12 to 17 children were not at all uncommon.

Big families are getting fewer as the years go by. The number of 20 children is almost as much of a curiosity in 1923 as the Ormsby quadruplets were in 1922.

There were plenty of 20-children families, however, if the economic pinch were not quite so tight, though Lemuel R. Barton, farmer-father of the big New England family, says he finds it as easy to take care of 20 as of 5.

Proudly he points out that if every family had 20 children, our community would have a great increase in population. They certainly would. There are about 20 million families in America, and if each had 20 children our population would be around 440 millions, four times as big as it is now. However, we'll have that population, and more, in time.

The world gets better. Very few young dentists graduated in June have been shot, yet.

Troy Johnson, living nine miles northeast of Macksville, Kan., has come to the conclusion that more zephyrs blow in Kansas. Twice within a year he has been struck by lightning. The first burn, a 70 by 35 structure on cement foundations, was blown down. It was reconstructed on the old foundations and before it was a year old another storm razed it.

**A Thought**  
A merry heart doth good like a medicine; but a broken spirit driveth the bones.—Dry, 1722.

Generosity is like money well expended; in charity, the more we dispense of it, the greater our possession.

—Victor Hugo.

**Cured Ill, Anyway**

The patient, feeling worse, wants again to see the family physician. After a thorough examination the doctor said he was only suffering from a bad cold and warned him to follow directions carefully. The patient was then given some capsules.

Dr. Moon—Be here and take these capsules in alternation.

—Patient—sarcil will doctor.

Three weeks slipped by and nothing was heard of the patient. Then one day he was confronted on the street and Dr. Moon asked him how he felt. Patient—Very well, doctor, these capsules were a little jarbo, but, doctor, I couldn't find any alternation at home and so I used water.

**Band Conductors**

Mary Gordon, at a Chicago reception, was criticizing a certain conductor.

"His work," she said, "is so poor

that it reminds me of the Cincinnati brass band, which gave a concert one night. The music wasn't very harmonious to start with, and it kept getting worse and worse. Finally a perfectly terrible number came. Such a crash that it never lived up to the name in Cincinnati. The audience applauded politely, though, and the director wiped his brow and muttered to the conductor, 'What's the next selection, pard?' The 'Maiden's Prayer,' the conductor muttered back. The first concert looked startled. 'Holy smoke,' he said, 'I have just been playing "Maiden's Prayer!"'

**He Was All Right**

A strait-laced man suddenly began reading Mother Goose. In his library at night he would go over these old rhymes, seeming to weigh one as against another, then shaking his head, and turning to other parts of the book.

Naturally his family became alarmed and sent for the family doctor.

The medical man had to go about the house, asking the patient, "What do you do?"

"I'm a conductor," he said.

"I'm a conductor," he said again.

## "Call Me Magnus," Begs Western Dirt Farmer, Elected Senator

MAGNUS JOHNSON LIKES TO CARE FOR HIS HORSES. HE CERTAINLY LOOKS HAPPY IN THE UPPER LEFT HAND PHOTO. THE SENATE WON'T SEE HIM THE WAY HE IS IN THE UPPER RIGHT-HAND PICTURE, BUT HIS NEIGHBORS OUT IN MINNESOTA DO. MRS. JOHNSON, WHO HELPS "MAGNUS" RUN THE FARM, IS SHOWN. was born on the Fourth of July. Who says I am not patriotic?

Then are introduced the others of the family—"Ma" Johnson, a large pleasant-smiling, unaffected country-woman; Lillian, 23; Victor, 21; Francis, 19; Agnes, 10, and Florence, 9.

### Family of Workers

They bore the burden of farm work during the campaign. On election day Mrs. Johnson herself milked seven of the family's 24 cows before going to Minneapolis to receive election returns. "Ma" and Magnus will take the younger three children to Washington when they go.

By a back door, the senator leads his visitors through to dining room to the "sitting room." The kitchen is in the rear, but in the dining room is a sink with pump at the end instead of water faucets. On the sideboard stand fresh-filled kerosene lamps.

Lillian goes back to clearing the dishes from the table and scrapes gravy from the cloth where the children had spilled it.

Magnus talks he opens letters at a small roll-top desk in the sitting room. There are two sections of bookcases over the desk, but the books consist almost entirely of volumes of Minnesota legislative proceedings. Most conspicuous on the walls are old-time enlarged portraits in tarnished gilt frames, showing Magnus and his first wife. Some of the children sleep in couches in the sitting room.

Magnus tells his visitors he was born in Sweden 52 years ago. He got good marks at school but left when he was 12. He worked on coast sailing vessels, developed his lungs in a glass factory and came to America at 20. After a few years as a lumberjack he moved to the farm which is home today, paying \$15 an acre for the first 40 acres.

He is a striking similarity to Then

odore Roosevelt which this rustic radial is delighted to hear referred to.

"Call Me Magnus"

First greetings included the new title of "senator."

"Call me Magnus," says the senator, and the manner is anything but a pose.

A rich Swedish accent shows as he follows his words in the conversational tone which can be heard on the next farm. The accent will be found to include "gentlemen" for "gentlemen," "very" for "very" and "phrases" for "phrases."

"This is Magnus Johnson, Junior," he says, as he seizes his stage-frightened 14-year-old namesake and drags him forward for introduction.

"Magnus is a very good boy," says the father, his blue eyes shining

through over-thick spectacles and his

teeth showing in a broad smile under the bushy reddish mustache. "Magnus is a square-cut, cheerful, alert face.

His picturesquely crudely externally

has to work hard on the farm. He

BAKER FINED \$1000

Man Said to Be Brother of  
Ex-Sec. Baker, Arrested—  
Had Whiskey Aboard Boat

NEW YORK, July 27.—Julian B. Baker, a member of the Tammany Club in Sheepshead Bay, and said by Edward Barnes, assistant collector of customs, to be a brother of former Secretary of War Newton D. Baker, today was fined \$1600 after coast guards boarded his motor boat Monday yesterday outside the three-mile limit and found six cans of whiskey aboard.

Mr. Baker, who was accompanied on the Modestie by Harry Wyatt, was taken into custody, charged with transporting liquor within the 12-mile limit. Wyatt was discharged when Baker cleared him of complicity in the alleged transportation.

Mr. Barnes declared that inasmuch as there was no evidence of conspiracy and because the seizure was made outside the three-mile limit, Baker was not charged with criminally violating the prohibition laws. After the fine was imposed, Baker was released. Mr. Barnes said, pending arrangements for payment, Baker admitted Mr. Barnes declared that he was captured when returning from the rum fleet where he had purchased the whiskey from the schooner J. R. Young, anchored off Sandy Hook.

# CY WILLIAMS AGAIN SETTING PACE FOR HOME RUNS IN MAJORS

## UPHILL FIGHT GIVES LINCOLNS 9 TO 7 VICTORY OVER AMERICANS

Fourth Inning Rally Good for Seven Runs Brings Victory to Lincolns—“Hank” Garrity Entered Box After Americans Had Scored Seven Runs and Held Opponents Runless for Remaining Three Innings—Home Run by Parkey Daley

### TWILIGHT LEAGUE STANDING

Team	Won	Lost	Ave.
West Ends	1	0	1.000
Americans	1	1	.500
Bellevues	1	1	.500
Lincolns	1	2	.383

### GAME TONIGHT

West Ends vs. Bellevues.

With a slashing seven run rally in the fourth inning the Lincolns came from behind and triumphed over the Lowell Americans in last night's Twilight League game on the South common by the score of 9 to 7.

Entering the “big” inning with the score seven to two against them, few gave the Lincolns even an outside chance to land the award. But Daley hit off Regan, coupled with a series of errors of omission and commission on the part of the American Infidels sent six big runs over the pan, and “Hank” Garrity who stepped into the box in place of Lawless held the Americans scoreless during the remainder of the game. Hank was in great form and his masterly pitching instilled confidence with his teammates and they rode through to a thrilling victory.

“Hank” Garrity who started on the mound for the Lincolns showed flashes of brilliance, but he was awarded rather poor support, and this in addition to the fact that he complained of a sore arm, brought Garrity in to relieve him. Lawless allowed seven runs and five hits and passed four men. In the sixth inning Lawless struck out two men, but as “Hank” Garrity came dropped the third strike on Ginn and then threw poorly to first, the man was safe and two runs were scored before the side was retired.

Francis Regan pitched good ball with the exception of the first and fourth frames. The Lincolns got him for three hits and two runs in the opening stanza and then jumped on his show for the big seven-run rally in the fourth. But had the American hurler been accorded good support in the latter round he would have probably won his game.

### Home Run Drive

The contest was unique with all the details that go to make up an exciting exhibition of the national game. There were brilliant features intermingled with “boots,” etc. There were good, bad and indifferent stunts turned in by both sides. Classy pitching was followed by erratic hurling. Heavy and timely boating, and clever and dumb base running all crowded into the second round of play. The real home run drive by Parkey Daley of the Americans in the first inning was the hitting feature. It came with a man on base and was a real circuit clout. The ball went like a rifle shot to deep center, beyond the fence pole, and Daley had ample time to “touch all the bases” before the horsehide was returned to the pitcher. George Regan and Doyle collected two hits for the Lincolns, while Ginn contributed a brace for the Americans.

### Condon Opens With Double

The game opened with Larry Condon crashing a double to left. He scored when Allen drove out a single. Allen came home from second on a wild hit. The Americans got the right back in their hole and took the lead with three runs. Ginn walked and scored on Sausa's bunt, and the latter counted on Daley's homer.

The Americans got two more in the second, the result of a “gulf.” Lawless fanned Carr, Regan and Ginn in order, but the latter got a high fly that dropped on third strike and then came wild to first. Hits by O'Day and Sausa followed, with a brace of runs the result.

Again in the third the Americans got a couple. Daley bunt out, Crowe and Aldrich walked, McGowan fanned, but Carr singled and Crowe scored. Regan fanned, hitting one, that Condon missed and Aldrich registered. Score Americans 5, Lincolns 2.

### Avalanche of Runs

Then came the big inning, the fourth, with the Lincolns piling in seven runs. Willard, Garrity and George Regan got hits in the row. Wallace sent Willard home safe on a play that would have been a play off up to the plate. Lawless and Lawler got rounders to the inside, two errors and another hit sent over six runs. It for the West Ends, with Daley.

### Home Run Drive

The West Ends are out to keep their slate clean, while the Bellevues smartly land the 20 to 1 defeat at the hands of the Americans on Tuesday night, are determined to win tonight.

### South Common Pickups

The West Ends and Bellevues are on the card for tonight.

### Duke Connors is scheduled to work

for the West Ends, with Trask or

### MASS. TWILIGHT LEAGUE

Gardner Team Defeated by the Abbot Worsteds at Graniteville

The Gardner team of the Mass. Twilight League, which defeated the Lowell C.M.A.C. last Tuesday evening, fell before Al Davidson of the Abbot Worsteds at Graniteville last night and was beaten by the score of 12 to 9. Both teams both in the opening inning, when one allowed his adversaries but two Gardner made its only tally of the game. The Abbotos connected with Lawler's offerings for nine safeties. Dec, with three out of four, being the decisive noise with the willow. The score:

# DUNDEE, VETERAN OF 300 RING BATTLES, WINS FEATHERWEIGHT TITLE

## CRIQUI LOSES TITLE IN SAME RING WHERE HE LIFTED IT FROM KILBANE

Dundee Scores Spectacularly Decisive Victory and Wins Title Toward Which He Has Fought For 13 Years—Criqui, Hero of Verdun, Went Down to Defeat Fighting to Last Ditch Against Relentless Foe—Knocked Down Three Times

NEW YORK, July 27.—(By the Associated Press)—Johnny Dundee, veteran of more than three hundred ring battles, today holds the throne toward which he has fought for 13 years—the featherweight championship of the world—as a result of his spectacularly decisive victory last night over Eugene Criqui, French holder of the title, in 15 rounds at the Polo grounds.

### Went Down Fighting

But while the honors of that triumph rest with the little Italian-American, the glory of the battle went to the vanquished—the slender ex-patric hero of Verdun, who went down to defeat fighting to the last ditch against a relentless foe.

Criqui lost his title in the same arena where he had lifted it from Johnny Kilbane, less than two months ago by knocking out the veteran in the sixth round. He was outclassed from start to finish last night. He was a beaten boxer from the time Dundee dropped him for the count nine in the first round. He was on the verge of a knockout in the second, when Dundee's right hook dislodged him twice for long counts. He was tottering in the seventh and eighth rounds, reeling and bloody in the 12th and, against the ropes, barely able to hang on in the 14th. But futile as were his efforts, he kept trying to fight back, staggering and stumbling at his fleeting, bounding target.

### Criqui Puzzled Dundee

Dundee seemed puzzled by the stamina and the grit of his rival. He refused to let the veteran in the 12th round, for instance, to bring the Frenchman down. His bounces from the ropes in characteristic fashion, leaped in with both fists swinging but Criqui's jaw seemed made of iron. It withstood the heaviest of Dundee's punches. They floored Criqui but they could not keep him down and after the second round the Frenchman was beyond his feet.

Criqui's brilliant defensive tactics, his generalship under fire, helped him to stave off a knockout, but his courage and stamina were the most important factors.

### Dundee Picturesque Figure

Criqui will sail back to France next Monday without the trappings which helped to make him the hero of his country. The 12th-round crown was in foreign custody for nearly two months but it did not depart from this country, where it has always been held since the bare-knuckle days of pugilism.

The new champion is one of the most picturesque of ring figures. He has the physique and general ability to make varied weights, battling as a featherweight, lightweight and welterweight, without discrimination. But the world's 125-pound crown is the most important title he has ever held. Dundee also held the junior lightweight or 120-pound title but lost that recently to Jack Bernstein, of Yonkers, N. Y.

Dundee is 26 years old, married, and lives in Orange, N. J. He was born in Italy, and his real name is Joseph Carrara. Record books list more than 300 bouts in which he has engaged since 1911.

### RIGHT BY ROUNDS

**Round One**  
They met in the centre of the ring and started in fighting. Criqui landed right to body. Dundee landed a first real blow to the head. They kept exchanging right blows and clinches, but as there was doing damage, Criqui landed four lefts to head. Dundee had the right hook to the jaw and Criqui countered with the same hand to the body. The Frenchman booked a right to the jaw that hurt. Dundee sent Criqui to the floor with a hard right to jaw and the Frenchman remained on his knees while the referee called out a count of nine. Dundee got in a relentless attack when Criqui gained his feet, slashing with both hands to the body and punishing the champion severely. Dundee was cracking away when the bell stopped him.

**Round Two**  
Criqui came out a little unsteady and fell into a clinch. He hooked a left to Dundee and the challenger leaned back and swung a hard left to head, making the Frenchman waver on his feet. Dundee had the crowd in the wildest uproar, hooking left to head but the Frenchman was not so easily beaten. Dundee sent Criqui to the floor for a count of seven. The Frenchman came up and Dundee spilt him. Criqui took the count of nine. Dundee laid back for a knockout, punishing Criqui severely. Although he was wavering, Criqui fought back, taking left after left and clinching when his blows landed. They were sparring lightly in the centre when the round ended.

**Round Three**  
Criqui looked good enough as he sat in a corner waiting to the counsel of his handlers. Dundee punched his body in the first attack and then landed left. Dundee forced his right solidly. Criqui came in for more punishing, wildly, but Dundee always advancing. Dundee was much too fast for the Frenchman easily evading his futile attempts and punishing accurately with both hands. Dundee repeated the old trick of bouncing off the ropes twice. He was starting the trick again when the bell ended the round.

**Round Four**  
Criqui started the attack but he was either short or over and a series of clinches resulted. Dundee was a little slower and they sparred more but when he chose to when his left it was out-savagery. The challenger dodged half a dozen leads and aside from occasional left jabs he kept on the defensive. Then Dundee started bouncing off the ropes and advancing across the ring. Criqui struck at the flying target, but it was no use. They were in a slight clinch when the gong ended.

**Round Five**  
Criqui spat up blood while his handlers worked feverishly. Johnny landed a half dozen lefts and they fell into a wrestling clinch. Criqui landed a wide right but was too wide on his next salvo. Dundee pounded the champion's kidneys and they clinched and slashed over three stiff lefts. Criqui got his left to Johnny's head. The pace had slowed but still Criqui could

hit his adversary when the bell ended the slowest round of the fight.

### Round 15

Criqui nodded his head negatively to a friend at the ringside, showing he knew it was hopeless. Dundee came from his corner very determined, but they clinched three times. Criqui was trying hard for a knockout as was Dundee. The challenger got in a two-fisted attack to head and body and Criqui struck again before he clinched. They sparred a minute, exchanging at arms length and then clinched but Dundee being his next foray. He struck both hands to the head with all he had and Criqui could not hold his gloves against his face, but he had strength enough in his legs to walk in again. Dundee thumped the Frenchman's body and Criqui danced away. Dundee landed his head unmercifully with both hands and was assailing when the bell rang. Criqui walked away, refusing Dundee's hand.

### LOST ONE TITLE

### TO WIN ANOTHER

NEW YORK, July 27.—(By the Associated Press)—Johnny Dundee, the new featherweight champion, is the second pugilist who has shown that he has lost one title only to come back and win another of greater importance. The other is Pancho Villa, flyweight king.

Dundee in a series of elimination bouts was awarded the title of junior lightweight or 130-pound champion, a title recognized only in the United States. A few weeks ago he lost this title to Jack Bernstein on a referee's decision but now, despite his loss, is a full-fledged world's champion.

Villa won the American flyweight title from Johnny Buff, and after holding it a few months lost it to Frankie Genaro. The little Filipino then won the world's title of his class by knocking out Jimmy Wilde of England, at the Polo grounds, June 13.

**SILESIANS TOO MUCH FOR DERRY TEAM**

Wayne Peterson pitched the Silesia mill team to a 3 to 2 victory over the Ferry, N. H., team in the up-state town last evening. An eighth inning rally, in which Bridgford scored on J. Gilmore's sacrifice fly, broke a 2-2 tie and brought the win to the locals. It was Peterson's first appearance in a Silesia uniform and he came through with colors flying. The score:

## ROOSEVELT AT NEWPORT ASSASSINATION OF VILLA

Assistant Secretary of Navy  
Drops From Air But Few  
Hundred Feet From Float

NEWPORT, R. I., July 26.—Assistant Secretary of the Navy Roosevelt on a tour of inspection of naval stations on the northern coast dropped from the air this forenoon but a few hundred feet from the landing field at the naval training station, and stepped from the plane to the float where his father landed many times from a steam launch. As his dog was broken out on the historic Constellation there were ruffles and a gun salute. The appearance battalion paraded and was reviewed by an escort. His arrival was attended by an escort of destroyers and 21 navy planes from sea. The whole was spoken of by officers of the war college as the snappest proceeding of the kind they had ever witnessed.

Inspection of the station, lunch with Rear-Admiral C. S. Williams and other commanding officers of the locality, a speech before the college classes, all kept him busy until he was ready to go to the aviation ship Wright for the continuance of his trip.

INVESTIGATE SEIZURE OF  
250 CASES OF LIQUOR

PROVIDENCE, R. I., July 26.—United States treasury agents and customs inspectors from New York and Boston are today conducting an investigation into the circumstances surrounding the seizure of 250 cases of imported liquor, a 35-foot motor boat and a two-ton truck at the Ferry Cup dock, near East Greenwich, at three o'clock yesterday.

Upon their report will depend what action, if any, Collector of Customs Emery J. San Souci, Acting Prohibition Director Harry G. Sheldon and District Attorney Norman S. Case will take in regard to Deputy Collector and Inspector of Customs Charles B. O'Connell, East Greenwich Police Officer Walter J. Mott, James C. Riley, Benjamin Stevenson and David Yantes, all of Newport, who were questioned yesterday after prohibition agents had seized the liquor, motor boat and truck.

If the claim of Deputy Collector O'Connell that he sold the load of liquor on behalf of the United States holds true, the government investigation will end.

FARMERS' CONDITION IS  
SERIOUS, SAYS OTIS

NEW YORK, July 26.—Serious crimping of the nation's food productivity may result if the exodus of farm labor into the cities continues, D. H. Otis, director of the agricultural commission of the American Bankers' commission, declared today.

"We must admit," he said, "that the farmers' condition is serious. He is selling many of his products below the cost of production. This has crippled the nation's buying power greatly since farmers' purchases constitute practically 50 per cent of the whole. The farmers feel very disillusioned and are looking for some way out."

Mr. Otis, who has been studying agricultural conditions throughout the nation, declared that discontent with economic conditions had put farmers in a frame of mind to be led astray by radical agitation. Unless conditions improve, he said, the farmer was simply going to leave the farms.

VOTE OF CONFIDENCE  
IN JUSTICE TAFT

ATLANTA, Ga., July 26.—The Senate of Georgia today adopted a resolution giving a vote of confidence to William Howard Taft, chief Justice of the United States.

The Senate of Georgia, the resolution said, "desires to approve the tenure of Andrew Carnegie to Mr. Taft and to affectionately go on record and declare that the life and character of Mr. Taft has been a blessing and benefit to the nation."

FEDERAL PROBE OF  
NEW YORK BROKERS

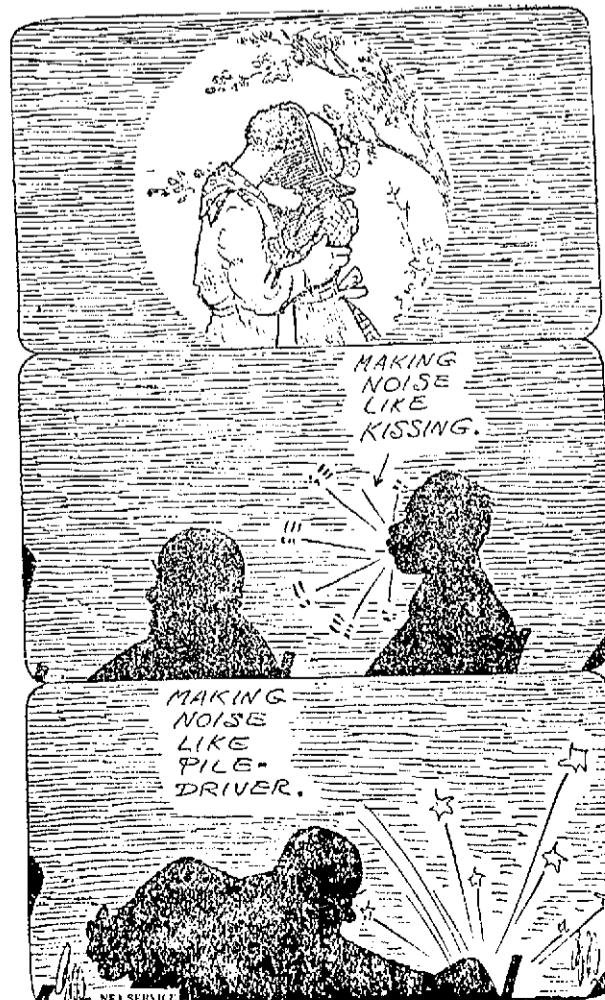

NEW YORK, July 26.—The federal grand jury today was reported to have begun an investigation of the books and papers of Jones & Baker, brokers, who failed recently, with liabilities estimated at more than \$15,000.

He said that he would visit his former home in Yorkshire and also would go to see the graves of two brothers killed in France in the World war.

## Elsie Ferguson, Actress, Gets Divorce

PARIS, July 26.—Elsie Ferguson, noted actress, was granted a divorce today from Thomas Benedict Clarke, whom she married in New York seven years ago. The grounds were extreme indifference, desertion and failure to provide.

## EVERETT TRUE

15 Days Prior to His Death  
Villa Gave Out Report  
Showing Enemies in Plot

WASHINGTON, July 26.—Fifteen days prior to his death Francisco Villa made public documents showing certain personal enemies were attempting his life, said a statement issued here today by the Mexican embassy, quoting official advices from Mexico.

"There is no doubt," the embassy added, "that his assassination was due to the numerous grievances perpetrated by him during the period in which he was a revolutionary chief."

"The government is doing everything possible to clear the facts of the murder and to effect the capture of the murderers."

## "PARK GUNS OUTSIDE"

Trial of Garrett Brothers for  
Murder of Rev. Edward S.  
Pierce Opens

UMBERLAND COURT HOUSE, Va., July 26.—Trial of Robert G. and Martin C. Garrett, brothers, charged with the murder of the Rev. Edward S. Pierce, began here today with armed guards patrolling the court house, police and spectators under instructions from the court to "park their guns outside."

A move for a change of venue was the first act of the prosecution.

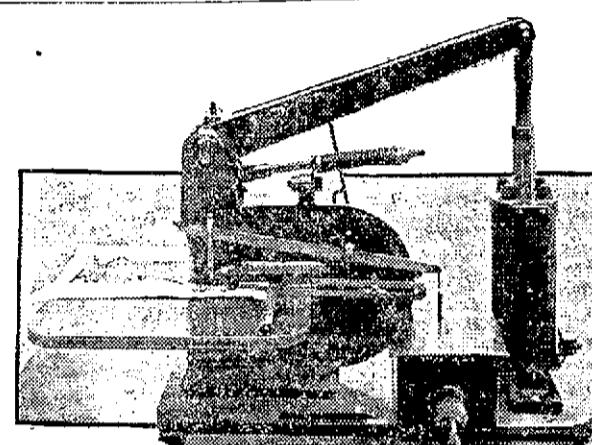

The Garretts, both county officials,

are charged with shooting the minister, who was pastor of five churches in the county, in front of his home here last June. They have asserted the preacher was shot in self-defense.

Gas on the Stomach  
Annoys You—Embarrasses You  
STOP IT!

If you know what it means to have people turn their heads because of your disagreeable breath or because you hiccough or belch—then you need O'BRIEN'S for DYSPEPSIA.

You'll never be comfortable. You'll never be at ease until you rid yourself of the evil effects of gas on the stomach. Disagreeable, yes, dangerous, gas on the stomach does not properly digest food.

And those distressing pains around your heart may be due to gas pressure. That anxious, nervous feeling often accompanied by heart palpitation, difficult breathing, or a smothering sensation—these can usually be traced to the same source.

To secure permanent relief you must banish gas. You need a remedy which contains such healing ingredients as Wine of Peppermint.

Because O'BRIEN'S for Dyspepsia has proved itself in so many cases, the D. P. O'Brien Co. do not hesitate to make the following guarantee: you to be judge:

O'BRIEN'S for DYSPEPSIA

## Jack Daw's Adventures. Chapter 11

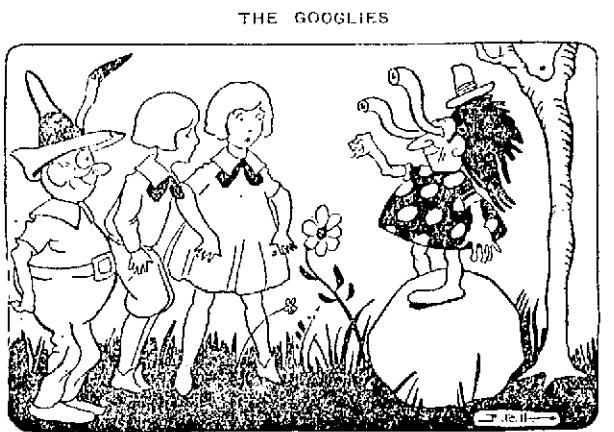

Right down near the bottom of the sea Jack's faithful pet dog had come upon a school of dog fish. They seemed glad to see him, and Jack looked on with interest while Flip ran around in circles playing with several of the queer little fish.

Soon the dog fish darted up high into the water and Flip was left alone. Then Jack again turned the sea horses and was on his way again. They had traveled but a short distance when the horses swam right into a big net. It all happened so suddenly that Jack too, was caught.

At first the young adventurer was startled for, all about him, were numerous fish trying their best to get out of the net. Jack knew that fishermen were above and would soon pull the net up and kill all of the fish. "I'll have to find some way to save them," he thought. (Continued.)

"I CAN SEE AROUND THE WORLD WITH THESE EYES OF MINE."

The next place in Rainbow Land where the Twins went with Mister Sky Bow was the place where the Googlies lived.

The Googlies were not beautiful. They were far from it. Indeed they were ugly, for their eyes stuck out like the lamps on an automobile and it gave them the appearance of inquisitive beetles standing on their hind legs.

"How do you do?" said a Googly, stepping up and tipping his hat. "We've been expecting you for five hours and forty minutes and sixteen seconds. You are late."

"Why?" exclaimed Nancy. "How did you know we were coming?"

"Never ask a Googly how he knows anything," said the Googly most importantly. "These eyes of ours were not made for nothing. Some people have marks that stretch when there are secrets to be heard, but we have eyes that stretch, too!"

## Eighty-Year-Old "Salvation Nell" Tells How She Saved Bowery Rowdies

COMMANDANT EMMA WESTBROOK

BY JOSEPHINE VAN DE GRIFT  
N. E. A. Staff Writer

ALBANY, N. Y., July 27.—She helped plant the flag of the Salvation Army in the United States! And now, although nearly 80 years of age, Commandant Emma Westbrook is still going after souls and going after them strong. Three nights a week right out in the middle of the open air ring in the busiest street corner of Albany.

Ten years ago the Salvation Army tried to retire her. But Commandant Emma Westbrook balked. Back in 1880 General Booth had sent her along with six other ladies to America with these words: "Go forth, for souls and to the worst."

Well, she had gone after souls and she wasn't going to quit. They could retire her officially if they wanted to but her hat was in the ring to stay.

The Salvation Army gave up, and the following Christmas Commandant Westbrook manned one of the kettles with the snow flakes scurrying around her aged head.

"I loved the Bowery rowdies," says this gentle old lady who looks upon the world with lively interest and who advances across the room with sturdy rhythmic tread developed through many years of marching behind heating drums.

"I loved them, bad, rough swanking, crude though they were. But they had real religion under their thick skin."

And then the veteran crusader called up such pictures as those. The helpless drunkard picked up in the Bowery 20 years ago—now vice-president of a bank in an eastern city, man of prestige, talent and respectability.

The first Salvation Army convert in America "Ash-barrel Jimmy," so named because he was dragged out of a hot ash barrel into which he had fallen during a drunken bumbling pursuit of his hat. He died two years ago in Boston, after a useful life. He had become an ardent prohibitionist.

The backslidder who, after contentious conversion, refused to go back "leave it alone." The recalcitrant taunted him to leave it alone by locking him in the Salvation Army hall without food until he begged for thirty and promised to be good.

The distressed young man working as a common laborer, who didn't realize until the commandant told him what he considered a hobby, making little sketches of his friends and surroundings, should be his life work. The man—not so young, now—earns between \$200 and \$300 a week.

The ragged man she found half asleep, half drunk, on a park bench 26 years ago, who is now the president of a publishing firm, and from his ninth window can point out the very spot in city hall park where she touched his shoulder and invited him to come along and have a cup of coffee and talk it over.

To Commandant Westbrook, however, they are just as many "Victories." One of her favorite mottoes is that "when God forgets He forgets" and, apparently, she believes that we also should forget the dramatic circumstances when a soul is reclaimed and remember only the "victory."

Commandant Westbrook participated in the first meeting held by the Salvation Army in New York city. It was an alcohol. It is in such blackouts that she put on as one of the "acts" in that program as these that soldiers bring middle of a vaudeville program in leading houses to America.

This bump of rock undoubtedly

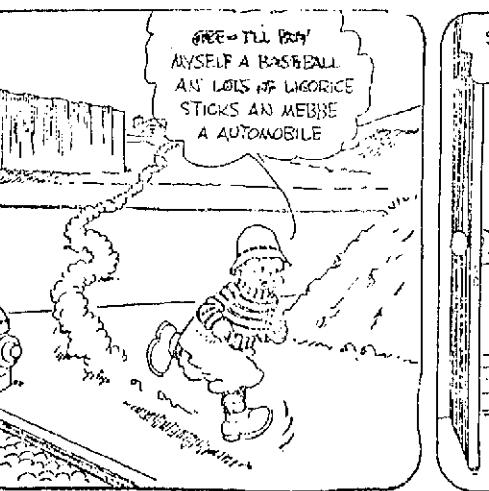

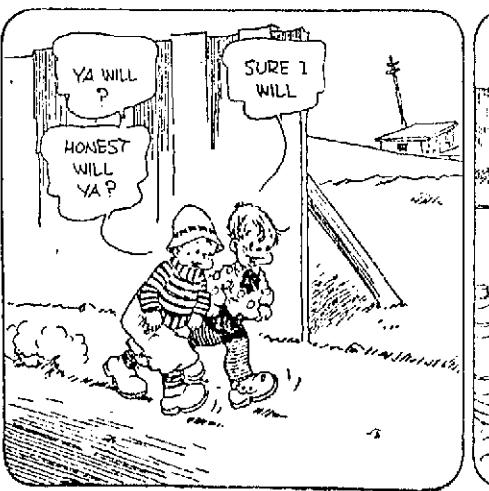

had with the British Isles when

she put on as one of the "acts" in that program as these that soldiers bring middle of a vaudeville program in leading houses to America.

## BUNNELL IN JAIL ON MURDER CHARGE

CANAAN, Vt., July 21—Edmund Bunnell, Canaan, 162 farmer who is charged with the murder of Job Cross, wealthy farmer and money-lender of Stewartsboro, Aug. 12, yesterday was taken from the lockup here and lodged in jail at Guilford, the adjacent town of Essex county, to await arraignment Aug. 1.

The preliminary hearing, which proceeded behind closed doors for several days, was completed yesterday. Cross disappeared July 12, on which day his automobile was found at the foot of a hill near Averill. A week later, searching parties found the money-lender's body shot through the head at Canaan hill, eight miles distant.

Bunnell was arrested when the authorities were informed that Cross called at his place the day he disappeared to seek settlement of a \$200 mortgage on Bunnell's land. Bunnell admitted the visit, but maintained that no payment was made on his note.

LOWELL DISTRICT COURT WILL GRADUATE FROM  
DENTAL HOSPITAL

Suspended Jail Sentence and  
Fine in Liquor Case  
Other Cases

A jail sentence was imposed by Associate Justice Fisher in district court today on Sam Skalkas, who was convicted for the second time of illegal keeping of liquor, but sentence was suspended for two months. In addition the defendant was fined \$100.

The defendant pleaded guilty, and his counsel, Attorney Daniel J. Donahue pleaded for a suspended sentence, saying that the defendant had firmly promised that he would cease having anything to do with liquor from now on.

Mike Kunk, who was arrested by Officer Walter Rivkin on Clinton street last night, admitted that he had been operating an automobile for two years without a license. He was fined \$10 for not having a license and also fined \$20 for not having a certificate of registration.

Alphonse Gindre was before the court for drunkenness. The court revoked a previous suspension of a jail sentence, and the defendant was ordered committed for two months.

The continued case of Henry Altman, charged with violation of the bandit law, was further continued for two weeks.

Paul Fontaine was charged with assault and battery and the case was continued until Aug. 1.

**JAIL TOO SMALL TO HOLD  
DRY LAW VIOLATORS**

LORAIN, Ohio, July 27.—The authorities must relent in their activities against liquor law violators in this country, or prison must be made for additional prison facilities,

DR. PERCY LIGHTMAN

awarded him on graduation from the Baltimore College of Dental Surgery a year ago. While in Boston he has done clinical work for the city health department in connection with his hospital duties.

Dr. Lightman was born in this city and received an elementary education at the Lincoln grammar and high schools.

County Commissioner W. B. Richmond stated today:

"The people voted in favor of prohibition and if the jail is not large enough you will have to build an addition." Municipal Judge Strecker told the commissioner, when he asked that some prisoners be released to relieve crowded conditions in the jail.

## THE OLD HOME TOWN

NIX MOWERY, AND THE SIX REASONS WHY HE FINALLY HAD TO GO TO WORK, PASSED THROUGH TOWN TODAY ON HIS WAY TO A NEW JOB IN HOOTSTOWN

Safety Lessons  
FOR  
The Auto Driver

Prepared by the National Safety Council—Issued by the Massachusetts Safety Council.

## No. 19—The Safe Driver

A man may have a mechanically perfect car, but because of carelessness driving he may cause an accident that results in serious injury or death to himself or others.

Reckless driving is not a demonstration of skill.

A moment or two saved today by peckless spending is not efficiency, for spending tomorrow may result in a smash that will lay up the car for several days and you for several months.

Always be careful when backing, start turning out to the left at least 10 feet to the rear. If you get up close to your view of the road ahead is obstructed and you may turn directly in front of another car coming toward you. When you have passed

another car, do not cut back into the road to do not cut back into the road to slow down too soon.

Always be careful when backing, sound horn three times; signal other drivers, and look back (not ahead) to see where you are going. Mirrors are valuable only a moment or two at the ultimate destination and the gain is not worth the price; there is too much danger of accident.

When driving, do not attempt to carry on a long conversation with others in the car. Small children should preferably sit in the rear of the car; they should never be held in or between the arms of the driver. Safe

to stop. Sound horn a short distance before the corner.

Don't zig-zag from one side of the street to the other.

When installing chains on the rear wheels, install them on both wheels or none at all. Only one chain may result in a serious accident. Chains on all four wheels help the steering of the car.

There are ruts at the bottom of almost every hill. Hitting these ruts at too high a speed may cause the driver to lose control of his car.

Drive slowly at bridges and at culverts. A bad rut or a stone in the road may throw your car against the structure.

When attempting to pass another vehicle going in the same direction, start turning out to the left at least 10 feet to the rear. If you get up close to your view of the road ahead is obstructed and you may turn directly in front of another car coming toward you. When you have passed

another car, do not cut back into the road to do not cut back into the road to slow down too soon.

MR. MICHAEL MEEHAN  
VISITING IN LOWELL

Mr. Michael Meehan of North Adams is visiting relatives and friends in this city. Mr. Meehan is a former resident of Lowell and served his apprenticeship as a printer in the Merrimack mills here. Upon leaving Lowell he went to New York state, but later removed to North Adams. He has several nephews in Lowell including former Mayor Meehan and Dr. Patrick J. Meehan.

"I left Lowell about 30 years ago," said Mr. Meehan, "but I keep in touch with Lowell by reading The Sun and the news paper that you read. I take up the line of news. I take The Sun and it is indeed a welcome visitor to my home."

Mr. Meehan is an Elk and was a visitor at the Elk's headquarters in Middlesex street this afternoon. He was glad to learn that the Lowell Lodge was planning a beautiful new home. "There's nothing too good for the B.P.O.E." quoth Mr. Meehan.

**NOW THE SAME JONES**  
The Charles Jones arranged before Commissioner Hayes in Boston yesterday, charged with attempting to bribe a prohibition agent, is not Charles H. Jones of 65 C street.

Driving demands your full and undivided attention.

Be sure and signal when driving toward or away from the curb.

You should shut off the engine, remove the ignition key, and set the emergency brake when leaving the car. Crimp the wheels to prevent the car from moving accidentally.

## LOWELL MEN BACK FROM KNIGHTS OF COLUMBUS

## A. O. H. CONVENTION

John Barrett and James J. McManaman, delegates and alternates, respectively, to the A. O. H. convention in Montreal last week, returned to Lowell last night after a very pleasant trip to the Canadian metropolis and other points of interest in the dominion.

At the regular meeting of Lowell Council Knights of Columbus, last evening, preliminary plans for the annual election of officers were taken with the appointment of the nominating committees to bring in lists of candidates. Grand Knight John E. Hart presided and matters of a routine nature were disposed of. The personnel of the nominating committees is as follows: No. 1, Timothy F. Rohan, Robert R. Thomas, John J. Lohan; No. 2, Henry P. Doran, John T. Burns, and Patrick H. Sweeney.

It was decided to hold an outing on Sept. 9 and the committee was empowered to bring in necessary details incidental to the holding of the affair at the August meeting.

Rev. Daniel J. Heffernan, chaplain, gave an illuminating talk on "Fraternity," stressing the vital necessity of practicing those ideals that are true and conform to the very finest ideals of church and state. The world needs the support of such a body as the Knights of Columbus, he said, if it is to get away from the materialistic things which seem to transcend in importance the higher and nobler impulses of citizenship. He believed there was something inspiring in the history and achievements of the knights to warrant the belief that the future was redolent with success and that loyalty and co-operation were the keynote of a successful organization. He reviewed several striking examples in history to emphasize his contention on the value of fraternity and its practical exemplification.

It was announced that a committee of fifteen members had been chosen to plan a comprehensive and definite program of social events for the fall and winter. The province of this committee will lie in the arranging of social undertakings, relying always on the diversified program and preventing the possibility of duplication.

The idea has found favor with many of the active and leading members of the council and the appointment of the committee will bring the desired results, it is believed.

Financial Secretary Philip J. Green is enjoying his vacation.

RECRUITS FOR THE  
ORGANIZED RESERVE

A campaign for recruits for the Organized Reserve was started last night at Merrimack park and will be continued tonight and tomorrow night by a squad of officers and men connected with the local office of the Reserve.

The detail was in charge of Major F. J. Teehey, C.A.C., and he was assisted by Capt. Thomas Hiltz, Sergt. T. J. Kimball, Howard Mitchell and Roland E. Falls and they succeeded in signing up many men during the evening. A recruiting tent was pitched on the grounds and the recruiting officers made several addresses during the evening.

Those who signed up were as follows: Louis Clough, 116 Neenah street; Peter F. Handy, 40 Second street; Michael F. George, 263 Third street; Charles D. Dunderdale, Mt. Pleasant avenue; John J. Clemens, 49 Second street; and Joe N. Hart, 785 Broadway.

##### CHAMBER OF COMMERCE SUGGESTS ELIMINATION OF SWITCHING CHARGES ON COAL

For some time past the chamber of commerce has been working for the elimination of switching charges on anthracite or bituminous coal delivered in Lowell from Providence, R. I., via the New York, New Haven and Hartford railroad and the Boston & Maine. The switching charge per ton on coal delivered from Providence amounts to 60 cents. This creates a very formidable charge on coal shipments to Lowell, on 30 tons for instance, it would amount to \$12. The reason for suggesting

the elimination of the switching charge via Boston.

During the coal shortage of last winter the port of Boston was clogged with coal, so much so that cars could not be secured to convey it, was indicated this afternoon with the arrival of the full scale committee of both operators and miners.

ATLANTIC CITY, N. J., July 27.—(By the Associated Press)—The strike cloud which has hovered over anthracite wage differences at the Hotel Ambassador, since July 6, appeared sooty black today as operators and miners, having departed last night in bitter disagreement over the closed shop and the check-off, met again to decide whether it would be of any use to continue peaceful negotiations.

They Will Strike if Demands Are Rejected

ATLANTIC CITY, N. J., July 27.—(By the Associated Press)—The gravity of the crisis in anthracite wage negotiations, now in a state of chaos after a split yesterday over the closed shop and the check-off, was indicated this afternoon with the arrival of the full scale committee of both operators and miners.

ATLANTIC CITY, N. J., July 27.—(By the Associated Press)—The strike cloud which has hovered over anthracite wage differences at the Hotel Ambassador, since July 6, appeared sooty black today as operators and miners, having departed last night in bitter disagreement over the closed shop and the check-off, met again to decide whether it would be of any use to continue peaceful negotiations.

What the next development might be in the event of the premature adjournment of these conferences, neither side would preset. Both declined to comment on the possibility of federal intervention. The miners already have announced they do not propose to arbitrate.

The present crisis was reported after two days of discussion of number one of the miners' demands when John L.

#### Assessors Raise Property Values to Counteract Unjustifiable Rent Increases By Landlords

The board of assessors has received upwards of 300 complaints this year of alleged unjustifiable rent increases in Lowell, practically every one of which has been investigated and adjustments in assessment made in many instances. The board is out today investigating the last of the complaints now at hand, which totalled nearly 100 for the present week, alone. Wherever the board has found justifiable complaints—and there have been many such—the property assessment has been increased to balance the advance in rentals. "Some of the increases have been enormous," said one board member today, "while others have been slight and perhaps not out of proportion. The board is anxious to assist tenants who have justifiable complaints and each one received is thoroughly investigated." One complaint received was that a tenement rental had been raised by a new landlord from \$4 to \$8.50 per week, while another told of monthly rental being boosted from \$31 to \$55. Both these cases were found to be so, and assessments were substantially increased.

Promoter of Criqui-Dundee Bout Set Down by Boxing Commission

NEW YORK, July 27.—The New York state boxing commission today announced that it had suspended Tom O'Rourke, matchmaker of the Polo Grounds Athletic club, which promoted last night's title battle between Eugene Criqui and Johnny Dundee, in which Dundee captured the leather-weight title from the Frenchman.

Although no official explanation was given of the suspension, the action was understood to have been taken as the result of a clash yesterday between O'Rourke and Walter Hooke, chief deputy boxing commissioner, during the weighing-in of the two fighters.

Criqui's manager had brought a set of weights to test the scales, but when he started to place them on the platform, Hooke objected. O'Rourke overruled him and told Manager Eudeline to go ahead, which he did. The scales, which previously had been approved by the commission, were found to be accurate.

## IT SOUNDS PECULIAR

Story of How Town of Peculiar in "Show Me" State Was Named

WASHINGTON, July 25.—(By the Associated Press)—There is a very peculiar name for a town.

The federal government does not name towns and hamlets when they are born or feel the urge for a cognomen, but the post office department does regulate them to the extent of prohibiting duplicating of names within the same state. So when a newly formed community in Missouri suggested a certain name for its post office, the department informed the inhabitants there was already one by that name in their state.

Several other names were chosen by the residents and submitted, but always with the same result. Finally an exasperated official of the department, in refusing the latest choice, wrote the city fathers among other things "that it was mighty peculiar they could not find a good name for their town." Whereupon, he received the following reply: "Acting on your suggestion we select the name Peculiar." And so Peculiar is on the map of today.

There is only one rule in the naming of new towns, and that is that there shall be but one of the same name in a state. But that does not prohibit other states from boasting towns of the same name. For instance, there are 45 names used more than 20 times each to designate towns and cities. Benjamin Franklin is remembered as an inspiration more than any other person, and Franklin as a town name takes the prize, occurring 81 times in 81 states. The others in point of popularity run: Clinton, 31 times; Chester, 20; Arlington, 29; Washington, 28; Troy, 27; Salem, 27; Madison, 27; Marion, 27; Manchester, 27; Clayton, 27; Greenwood, 26; Kingston, 26; Newport, 26; Ashland, 25; Centerville, 25; Cleveland, 25; Auburn, 24; Dover, 24; Hillsboro, 24; Lincoln, 24; Monroe, 21; Oxford, 24; Princeton, 24; Springfield, 23; Warren, 24; Union, 24; Greenville, 23; Wilson, 23; Belmont, 22; Buffalo, 22; Canton, 22; Dayton, 22; Eureka, 22; Liberty, 22; Milford, 22; Plymouth, 22; Burlington, 21; Lebanon, 21; Portland, 20; Lexington, 20; Jamestown, 20; Hudson, 20, and Danville, 20.

Duplicated names are the bane of the postal clerk, and the Yankee reputation for originally rises staggering when confronted by the apparent lack of imagination used to name American communities. There are even two Chicago's, six Philadelphia's, seven Detroit's, and 14 Denver's.

Similarly in names also causes the postal department considerable trouble. Indistinct penmanship might easily confuse Eldoro, Ia., with Eldorado, Ia. In Pennsylvania there are 13 communities whose names begin with the pretty Green: Greene, Greenbrier, Greenbush, Greencastle, Greenland, Greenough, Greenjiar, Greenboro, Greensburg, Greenstone, Greenstown, Greenville, and Greenwald. There is a partiality for Bloom as a prefix. In New York state, as for example, Bloomsburg, Bloomingdale, Blooming Grove, Bloomington and Bloomville.

Foreign cities have contributed their names freely in this country. There are 15 towns known as Paris and a like number of Geneva, 17 Berlin despite the war, 12 Moscow, 11 Vienna, 6 Peking and 2 Brussels.

## BIG REAL ESTATE BOOM IN JAPAN

TOKIO, July 27.—(By the Associated Press)—The demand for homes at the various seaside and mountain resorts of Japan made famous by foreigners is even on the increase, and those foreigners who invested wisely are reaping the harvest. Prices have gone up ten fold within the last few years and there seems no tendency to fall. At Karuizawa, the mountain resort to which missionaries from all over the far east flock in summer, and where the police regent will spend part of this season, very high prices are being paid for houses and land. The same is true at Kamakura, Zushi and Hayama, the seaside resorts, formerly almost entirely foreign, which have been invaded by the Japanese.

The property which foreigners are selling is held by them on 999 year leases, or through virtue of their being members of Japanese land companies such as were organized by the different missionary bodies.

## BOOKS TO SUPPORT BOLSHEVIST IDEAS

BUCHAREST, July 27.—(By the Associated Press)—Figures received here summarizing the activities of the publishing business in Russia which is purely an enterprise of the soviet state indicate that a great effort is being made to convince the Russian people of the correctness of bolshevist political, social and economic theories.

The soviet publishing house issued from its presses in Moscow and put into circulation throughout Russia during the last 12 months no less than 14,500,000 volumes covering the fields of economics, politics, history and even fiction.

Apart from the obvious propaganda tendencies of the volumes on political and economic subjects, the soviet historians have sought to show how the world has suffered because of its hostility to bolshevist doctrines, and in many of the fiction volumes the endeavor has been to prove that opposition to soviet doctrines has warped, limited or distorted individual lives.

Better Music, Quickly Mastered  
On the Gulbransen

Listen to the playing of a Gulbransen by anyone who understands the correct interpretation of the music being played.

Compare it with the hand-playing that you ordinarily hear.

It is no exaggeration to say that Gulbransen playing is infinitely superior, more expressive, more artistic.

Compare the best Gulbransen playing with the best hand-playing. They are indistinguishable.

These are broad statements, but facts.

They are important because they point the way for you to play good music, with your own individuality and expression, but without long study and tedious finger-work.

Remember these points: First, the Gulbransen is easy to play; second, you do the playing, you are in as close contact with the music being produced as is the musician who plays any instrument; third, it is the only player-piano with Instruction Rolls.

## MAN ENDS HIS LIFE

Suicides by Laying Head Across R. R. Track as Train Approached—Decapitated

**PLAINFIELD**, N. J., July 27—George Graves, Plainfield businessman, committed suicide today by laying his head across a railroad track as a freight train was approaching. He was severely.

He had been bedridden for a week.

He left his place of business here about 10 o'clock today and paced up and down beside the Jersey Central tracks.

Suddenly as a freight train approached, he was seen to throw himself to the ground with his head over the

head across a railroad track as a freight train was approaching. The head was severed.

off. They asked an overnight truce,  
however, and the miners agreed.

The attitude of the miners, expressed  
by Mr. Lewis today was: "We are in-  
sistent on this point, and will con-  
tinue to be."

And S. D. Warriner, the operators  
spokesman, replied when asked if their  
strike was final: "We presume it is."

The conference was further embat-  
tled by resentment created among the  
mine delegates by published reports  
that the operators had characterized

the check-off and closed shop as "un-  
American demands."

The miners delegates: "We do  
not want our patriotism questioned or  
made an issue in these proceedings."

Turks' Triumph is Discussed

Mr. Morgenthau, undoubtedly teach-  
ing the world this great lesson: That un-  
til the big powers disregard their sel-  
fish aims and the capacity of some of

their belligerent men and will unite in  
establishing a proper system of inter-  
national customs and laws, any small

country, clothed with legislative power,  
can at any time threaten the if our institutions of learning taking

up the challenge, teach more people  
of the world."

"It is almost pitiful how we Amer-  
icans have to sit with our hands tied,  
and spiritual calm. We shall dare  
though our eyes were allowed to look facts in the face, but first we  
see how this wily Turk triumphed; must make sure that they are facts,"

MIND WASN'T ON WORK!

Gus Roloff, Cleveland, can think of many more harmless ways of working up a perspiration than getting into a bear's cage at the zoo—with the bear inside. But that's what he did, to pick up pieces of a broken bottle someone had thrown in. The bear looked awfully hungry, Gus testified.

### MEANS TO INCREASE COTTON CROP SOUGHT

TABLET, La., July 25. (By the Associated Press)—Entomologists at the United States Department of Agriculture experiment station here hope to see, as a result of their researches, the enactment of uniform state laws to compel the dusting of all cotton with calcium arsenite from airplanes, or by auxiliary machinery where planes cannot be utilized. The dusting, it is claimed, would result in the maximum control of the boll weevil, which has caused the loss of untold millions of dollars to the cotton growers of the south.

The boll weevil has been controlled on dusted acreage, it is stated, but untreated acreage has permitted the re-production of the pest and a continuation of devastation. The weevil depends primarily upon the cotton plant for food, and the poisoning of its entire food supply, according to the experts, would permit maximum control. This can be done only through the compulsory treatment of all cotton.

From five to six pounds of calcium arsenite are used on each acre at an average cost of \$1.60, and it is believed the airplane will save at least one pound to the acre, representing an enormous reduction in the aggregate.

and legislative acts are regarded as necessary for a successful campaign.

The entomologists are using airplanes here in their experiment, after

having tried many machines for distributing dry calcium arsenite and the poison in solution. They declare the dry poison offers the greatest possibility of control, as it can be broken up into particles fine enough to reach all parts of the plant, which is not possible with the water globules.

One of the greatest problems facing the experimenters was the determination of a proper distributing apparatus, an apparatus that depends upon the velocity of the air now in use and the entomologists believe the distributing problem has been solved. It is known as the Vortex tube, a horn-shaped contrivance without any interior devices to impede the air current. At the rear end are plates to break down the poison into four streams which blow outward and downward. The poison is supplied to the tube through a slide valve in a hopper, located in the outlet of the plane.

### CLAIM FOR OVERTIME PAY TWO POLICEMEN SLAIN

Employees of Ash and Waste Collection Department File  
Claim

A claim for overtime pay for work done by employees of the ash and waste collection department of the city between the dates of February 2 and June 9, was filed with the council committee on claims and the city solicitor last night at a meeting at city hall. The total amount of money involved is approximately \$3000, claimed by 60 employees, whose work has carried them beyond the stipulated 48-hour week. The claim was filed on behalf of the department men by Attorney James J. Bruhl, who outlined the reasons for their petition before the committee.

One committee member, Commissar Daniel Givings, announced his approval of the claims, which, however, were taken under advisement.

The committee in private session heard petitioners or their representatives in the matter of claims filed against the city by the following individuals: James Himmel, Mrs. Katherine Kelly, Theresa G. Lavery, Mary McArdle, James J. Brown, Thomas J. Sullivan, William Neillson, Katherine Kierce, Pierre Dusseault, Louis W. Richards, James M. Mighly, Thomas Leary, Mrs. Hattie Gidder, Josephine Gandy and Michael Farley.

Gas attacks as a means of overcoming an enemy are recorded as far back as 1892 B. C.

led over Queensboro bridge and ended at 64th street and Second avenue.

The screams of the woman drew another patrolman to the scene but the assailants escaped. The patrolmen were Charles Reynolds and Frank Rommell. The shooting occurred not far from the society colony established on the upper East Side by leaders of New York's "Four hundred."

Patrolman Frank Sussman, who first heard the woman's screams, ran to the patrolmen just as they overtook the taxicab. They told him they needed no assistance, however, and as he turned away he heard two shots and whirled in time to see his comrades fall. He said he did not know whether

the woman was screaming for help or because she was being chased by the police.

Witnesses said the man fired both shots, drawing his pistol as soon as the taxicab stopped and giving the officers no chance to reach for their weapons. They said he then pointed his pistol at the taxi-driver, shouting "Go on, or I'll give it to you."

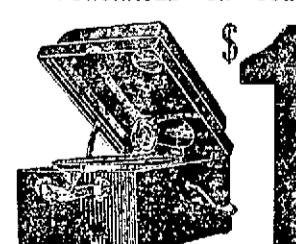

Complete with operating theatre, kitchen and saloons, a dorelli hospital train in Mesopotamia now serves a native sheik as a Turkish bath.

WHAT FARMERS WANT

No weather does not come first among the most desired information for farmers. Instead, a canvass by the department of agriculture shows, the farmers ask first for grain reports, then livestock and then weather.

8:30 p. m.—"S. S. Stations"

Uncle Sam is in charge of 885 radio stations in his territories. Of these the navy has 233 ship stations and 52 land stations and the army has 180 land stations. The rest are divided among the postoffice, commerce, interior and treasury departments.

NEW U. S. DEPARTMENT

"Department of communications" to take the place of the postoffice department is the suggestion made in the report for reorganization of the government administration, recently. This was made in view of the great development of radio in past years. In fact, a special bureau for telegraph and telephone service, particularly radio, is recommended.

TWO KINDS OF STATIONS

Broadcasting stations are resolving themselves down to two kinds: one general editorial and the other advertising.

The editorial stations are purely entertainment and informative, matter without regard for publicity, as opposed to the material sent out by the advertising stations. In many cases, one broadcasting station divides its transmitted material into these two classes.

Are your hands rough and hard?

The regular use of Resinol Soap is frequently all that is required to overcome such a condition, and produce that whiteness and velvety smoothness so much to be desired.

If, however, the hands are in very bad condition—if they crack open and smart after being in water—use Resinol Ointment as follows—

Bathe the hands freely with Resinol Soap before retiring. Dry completely. Rub in Resinol Ointment gently but thoroughly and cover with old gloves. In the morning bathe again with Resinol Soap. In most cases a few such treatments produce very satisfactory results.

Ask your druggist for the Resinol Products.

THE STORE FOR THRIFTY PEOPLE

# JULY MARKDOWNS

Bear in mind that no greater values are offered at any season of the year than you find here during the July Markdowns

Sales may come and sales may go, but we maintain that no house in New England presents in a store-wide bargain movement such remarkable reductions in seasonable merchandise.

Operating this mid-summer underprice carnival, as we have done for several years, we've learned that a selling of this sort is not a successful one from our standpoint, neither is it a satisfactory one from yours as a purchaser, unless you can come into the store feeling that no matter which section you turn to, or what your buying thoughts may be, we are ready for you with an offering of economy.

FOR INSTANCE—You are thinking of a Sweater; we're offering \$4.95 and \$5.95 grades at \$1.99—or a pair of White Canvas Pumps that usually sell at \$3.50, now they are \$1.45 a pair. Then for the week-end trip there's \$10.00 Suit Cases for \$8.00—also Mary Garden Compacts for 50c. In Wash Goods there's Imported Ratine for 69c yd.—and in the Children's Section on the Third Floor we've \$2.50 and \$3.98 Dresses of organdie and muslin at \$1.98. All of which you'll find with hundreds of other Bargains Marked by the Pink Cards.

## BLIND MAN POINTS WAY

## FOR THOSE WHO SEE

By N.E.A. Service  
UNION CITY, Mich., July 27.—A blind man who knows the way to others who can see!

That's the rather unique position of Tom F. Robinson, one of the outstanding personalities of this place, whose influence and loyalty are exceptionally far-reaching.

How does he do it? Well, he accomplishes it all through the columns of the Register Weekly, Union City's only newspaper, of which Robinson is sole owner, publisher and editor. And he performs his tasks in a way which would be a credit to people with less handicaps in life.

For 10 years now "Tom," as he is known to his many readers and acquaintances, has been totally blind. But the loss of vision has never tended to discourage him. In fact, the affliction has only served to spur him on to greater efforts.

Through his editorials, Robinson has grown to be a real educational force to this little ship of a town. A clear, forceful writer, he is always ready to advocate and support through his paper any project promoting growth and development.

At work, he keeps in close touch with every branch of endeavor in his plant with a sureness that is not always achieved even by those with unimpaired eyesight.

He has a Braille writer for the blind and on this he makes notes for his own reference. These he can readily read by touch. He also runs a typewriter with speed and accuracy. The "copy" for publication has his personal supervision.

One of his chief accomplishments is the successful campaign for establishment of the new municipal hydro-electric power plant here.

## EX-CROWN PRINCE PLANNING ESCAPE

LONDON, July 27.—That the former German crown prince, Frederick William, is believed to be planning his escape from Wieringen is asserted by the Antwerp correspondent of the Daily Mail. There is certainly some anxiety, throughout Belgium, he says, owing to confidential information regarding the comings and goings of various agents between Germany and Wieringen, and it is an open secret that the prince wants to return to Germany. He is believed to be in constant communication with the German nationalists and their organizations throughout the fatherland.

## MARRIAGES AND DIVORCES

WASHINGTON, July 27.—The department of commerce announces that according to returns received by the bureau of census, there were in Massachusetts, for the calendar year 1922, 32,653 marriages performed and 3204 divorces granted. For the calendar year 1915, the last year for which these statistics were collected by the bureau of the census, 34,336 marriages and 2336 divorces were reported.

The statistics of marriages for 1922 were furnished by the secretary of the commonwealth and those of divorces for the same year by the clerk of the superior court and the register of the probate court of each county. The figures are preliminary and subject to correction.

## AFTER AMATEUR TITLE

Bobby Jones, Golfer Extra-  
ordinary, Hopes to Equal  
Chick Evans' Feat

BY RILEY EVANS

Bobby Jones, golfer extraordinary, thinks this is going to be his big year. The Atlanta phenom has started it in the most approved style by winning the national open championship, the world series of golf.

In winning the golf classic, an honor expected to fall to the professional, Jones has inscribed his name among the immortals in amateur golfdom. Only three amateurs in the history of the event, Quimby, Evans, and Travers, have ever won the open title.

Jones, spurred on by his brilliant play in the open event and feeling that he has fulfilled the task that has always pursued his competitive play, is set on clinching the national amateur championship.

It is the ambition of Jones to win both the open and amateur event the same year, thereby equalling the record held by only one other amateur, Chick Evans.

Chick DID IT IN 1916

Back in 1916, Evans with a score of 254, the lowest ever registered in an open championship, won that event. He came right back by winning the amateur title, eliminating the record-holders, Robert Gardner, in the final 4 and 3.

No other amateur player has ever matched the mark in 1916. Evans surprised the golfing world by winning the open title after finishing in a tie with Ray and Vernon. He was not equal to winning both events, although he proved that his unexpected victory in the open was no fluke by

winning the amateur title the following year.

When Jones entered the national open it was also his intention to play in the western amateur championship at the Mayfield club, Cleveland. Winning the title caused him to change his plans entirely and he decided to play in the western event.

Maybe He WILL

Feeling that his play in the western amateur would not be up to his game, because of the severe strain he had gone through in the national open, and not desiring to detract from his hard-earned honors, he passed up the Cleveland event. It is his intention to rest for a few weeks and then point his game for the national amateur, scheduled for the week of Sept. 10, at the Franklin Country Club at Chillicothe.

Jones, in winning the national open, justified the opinion of many of the leading experts who have insisted that his name is without a flaw. His star has been in the ascendancy for several years. He finally arrived.

Three years ago he finished eighth in his first open tournament. In his next start he was fifth. Last year at Shinnecock Hills, for second, one stroke away from Evans. Since then he's won the Open, the Amateur, the Western, the Mid-Am, nothing to shoot at but first place this year and he delivered by winning at Ames.

Jones is a remarkable golfer. For a number of years he has been considered to be the best of the amateurs, yet something has always turned up to keep him from winning. This year he is out to beat the buzz for all time by taking down both titles.

There is a funny little game. We shall see what we shall see.

Maybe He WILL and maybe He won't.

## HARDING BACK IN U. S.

dental party was to enter the parade of the day.  
At 7 o'clock this evening the president and his party will leave for California.

Seattle, Wash., Welcomes the

Home Coming of President  
and Mrs. Harding

SEATTLE, Wash., July 27.—(By the Associated Press) With partisanship forgotten, Seattle was ready today to welcome the home coming of the president and Mrs. Harding.

The feature of the president's visit here will be his speech at the stadium of the University of Washington at 4 o'clock this afternoon when he is expected to discuss the problems of Alaska.

The speech is expected to require about an hour and a half for delivery.

Immediately upon the Henderson's arrival off the flagship Seattle at the harbor mouth, the president's review of the fleet was to begin. It was to require a full hour, from 9 to 10 a. m.

As the president passed, each ship was to dip its colors and fire the presidential salute of 21 guns.

That the Hardings may be doubly assured of Seattle's welcome, it was requested by the local and presidential entertainment committee last night that as the Hendersons neared the port at the Bell Street dock at 8:46, every factory and steamboat whistle on the water front give the visitors a full-throated blast.

Leaving the dock at 10:30 the pres-

ident will be at the stadium of the University of Washington at 4 o'clock this afternoon when he is expected to discuss the problems of Alaska.

# This Little World

BY A. H. FREDERICK  
NEA Service Writer.

SAN FRANCISCO, July 26.—When east meets west what happens? Sometimes one thing and sometimes another, as these two stories witness:

Recently there appeared in court here a Chinese woman, truly oriental in manner, be-painted costume and jade ornamentation.

With true Chinese passivity, she

down for a two-minute intermission then four of the pupils sank."

Ships once sailed in from a port to a wetter San Francisco waterfront.

Wherever sailors gathered they told wild tales of the Barbary "dungeons" and the honky-tonk attractions of the Barbary coast. Women who smiled and betrayed, robbery and wholegala fighting were all in the day's night's pleasure.

Now the Barbary coast has surrendered to Vedastism and water-houses are building where once the bars and dance halls reigned.

And the waterfront, theoretically bone dry, remembers the old days mostly by a few names still decorative dilapidated buildings—The Arrival Saloon, The Sailor's Rest, The Bullhead Saloon.

But there is one bar that will remain a memorial to Jack London, as long as its present owner lives.

This is the "First and Last Chance Saloon," standing near the dividing line between Oakland and Alameda.

Its owner, familiarly known as Old Johnny Heinhoid, befriended Jack London, then a penniless and hungry boy of

Commonwealth, Massachusetts.

## Cloud of Grasshoppers Obscures Sky

PONTIAC, Seine, July 27.—A cloud of millions of grasshoppers, about an eighth of a mile wide and several miles long, obscured the sky above this town for three hours yesterday. The insects, blown along by a breeze about 100 feet above the ground were carried toward the northwest.

## Death of Cardinal Marini Announced

LONDON, July 27.—(By the Associated Press)—The death of Cardinal Nicolo Marini was announced in a Central News dispatch from Rome this afternoon. Born in Rome in 1843, he was created a cardinal Dec. 4, 1916. He was secretary of the Congregation for the Oriental church.

## PUBLIC SERVICE BOARD

Plans for Relocation of Tracks

Not Approved—Water Bill

Abatements

The board of public service does not see its way clear to expend \$2000 for street work necessary in conjunction with the plans of the Eastern Massachusetts Railway Co. for the relocation of the curve at the junction of Merrimack and Dutton streets, used principally by Highlands and Broadway line cars and has sent the plans back to the city council without approval.

Requests for abatements of water bills and petitions for street, sidewalk and sewer repairs were received in unusual number at the meeting of the board late yesterday, which was of nearly two hours' duration.

Petitions for water bill abatements were received from the following persons:

Joseph Fay, for property in Willie street, court, the Maxwell estate, 318 Lawrence street, the Gage estate, in Wilder street; Mrs. Arthur L. McPherson, 17 Anderson street; Mrs. Frank Dlette, 972 Brabec street; Miss Nellie Gilroy, 61 Butlerfield street; James Farley, 50 Charles street; Henry James, 250 Mt. Vernon street; Garnett Mouschekian, 29 West Fourth street; Ochanas Mekkan, 7 Cady street; Esrel Greenberg, 121 Hallard street; Eliza Gaffney, 22-24 Walker street; Mary A. Collins, 85 Commonwealth Avenue, and John Delaney, 116 Fourth avenue.

Councilor Frank K. Stevens asked for repairs in Hampshire street, in School street near the railroad bridge and the sidewalk in Bridge street, also the catch basin at Elephants and Beacon streets. They were referred to the respective departments.

Councilor Thomas McFadden asked for the relocation of arc lights to light the Lumbert street bridge and the engineer was instructed to go ahead with the work.

Councilor Fred A. Sandler was present and presented requests for repairs in the following streets: Watson street, from Whipple to Lawrence street; Walnut from Gorham to Central street; Newhall street, from Crosby to Chambers street; Kinsman st. from Whipple to Chambers street; Livingston street from Whipple to Chambers street, and for edgestones in Cedar street. All were referred to the proper authorities.

A representative from the Redflexi Street Sign Co. of Boston, appeared before the board to interest the members in street and danger signs and was referred to Engineer Kearney for a conference at a later date.

A communication was read from Lowell post of the American Legion asking that the junction of Smith and Powell streets be named for Manuel W. Perry, and the junction of Charles and Central streets be named for Manuel Martin. Both men were killed in action during the World war and the legion's activity in their memory was in line with similar action taken through all parts of the city.

A petition from Max Katz in open Middlesex street for the laying of a steam pipe from the Hamilton mills to Old Fellows building was referred to the law department for an opinion.

It is understood that an arrangement had been made with the mill authorities to heat the building from the mill plant.

The Lowell Electric Light Corporation was given final authority to install 49 arc lights on the First Street boulevard and First street, which will make a continuation of the Bridge street lighting through the boulevard.

A bill presented by the Boston Construction Co. for the building of granite sidewalks in Adams street was ordered held up pending a view from the board.

## INVETERATE GOLFER

Master Recommends Divorce

for Husband of Dorothy C.

Hurd, Ex-Champion

PITTSBURGH, July 27.—Jack V. Hurd, prominent clubman, yesterday was recommended a divorce from Dorothy J. Campfield Hurd, ex-woman golf champion of the United States, Great Britain and Canada, in a master's report filed in common pleas court.

Evidence introduced at the hearing indicated that Mrs. Hurd was an "inveterate golfer," who preferred outdoor life on a golf course to the duties of housekeeping. "I believe it certainly," the master said in his report, "that she loves golf and indulges in it to the exclusion of her marital relations, and that she is determined to discontinue the latter."

About two years ago Mrs. Hurd filed a petition for divorce, but when she failed to press her action Mr. Hurd filed a counter-petition.

## ON TRIAL FOR MURDER

State's Motion for Change of Venue in Trial of Garrett Brothers Pending

CUMBERLAND COURTHOUSE, Va., July 27.—The state's motion for a change of venue in the trial of Robert O. and Larkin C. Garrett, brothers charged with the murder of the Rev. Edward S. Pierce, was still pending for argument when court convened today for the second day of the trial.

The defense was prepared to introduce additional affidavits to refute those presented by the prosecution in support of its contention that the Garretts control the county's legal and political machinery and therefore the state should not attain an impartial trial of the case in Cumberland county.

## PRIEST APPEALS TWO-YEAR SENTENCE

DENVER, Colo., July 27.—Father Walter A. Grace, Denver priest, convicted by a jury of forgery in connection with an application for a government permit to ship liquor into Colorado, was sentenced to two years in the United States penitentiary at

Leavenworth, Kas. A stay of execution was granted when his attorneys gave notice of appeal to the United States circuit court of appeals and the cleric was released on bonds of \$3000.

Father Grace still faces charges of illegal possession and transporting liquor and of conspiracy to violate and evade the Volstead act.

Federal Judge J. Foster Symes in pronouncing sentence said:

"The court can hardly believe that a man in the position and standing of Father Grace would do what he has been convicted of doing. However, the jury has found him guilty, and this court can but accept that verdict and provide punishment."

use of armed forces America shall find her assurance in a navy of the first rank.

"We were building two years ago at a rate that would have placed our armed sea power in excess of any other power, but in conviction that armament cost and competition was leading to menacing national burdens, we invite an international conference to fix limitation," the president added.

"We asked equality with the first rank for ourselves and were accorded it. Let us hope our congress, with the cordial sanction of the American people, will continue that first rank.

I believe our obligation to the world means the most exacting restriction of our maintenance within the maximum limitation fixed by the conference and I believe our clear duty to ourselves

is to maintain the equality provided in that maximum, until a new baptism of international conscience prescribes a joint action toward reduction or complete abolition."

In addition to his observances on the question of national power, Mr. Hardin said that "those of us who think we know a great lot about newspaper-making, may learn some very simple fundamentals by going to Alaska."

"I found myself," he continued, "involuntarily doffing my hat to the editor and publisher, who succeeds in maintaining a daily issue in a town of eight to twelve hundred persons where the circulation maximum cannot exceed two to three hundred copies. I refrain from an attempted analysis of the relation of the value of advertising to its cost, but the community value of the publication will remain unchallenged."

"There is a limited reflex of the big news of the world, with a larger relative regard for journalism than world policies, but human interest is fairly satisfied with the tabloid story of world events. Doubtless the Alaskan community is quite as well nourished mentally with its restricted news diet as are some of us who had our news in this way. If we read our newspapers fully, through elaborated and expatiated stories of crime and scandal, and wander through a haze of speculatory politics.

"The big assets in the successful Alaskan sheet is the home news and when the final analysis of the making of a newspaper is written, here is the secret of most newspaper success.

Give me a newspaper which in a true sense is the embodiment of service and

I know I am reading an index of the

Decision to keep the matter in abeyance until later on in the year following a suggestion or request to this effect by Mr. Sawyer, who expressed a desire to place the question before his society for more thorough discussion.

In the meantime Building Inspector Connor will forward to Engineer Kearny and the public service board a report of his investigation of the house, saying it is in a dangerous structural condition and practically beyond hope or possibility of proper repair. The matter will then be wholly in the hands of the board members, who will take action until September or October.

Cornelius F. Cronin, president of the Pawtucketville Improvement association, said today his organization will take no action in the matter as an organized group, although it favors the retention and perpetuation of the house under certain conditions. Mr. Cronin brought it to mind that the association petitioned for a renovation of the premises from a health standpoint about two years ago, which was done by the then Commissioner John P. Salmon of the water department. Mr. Cronin expressed the feeling that the preservation of the house as a landmark is "up to" the Lowell Historical

Scheibner had the ability but needed much coaching, which he received under Fohr. His showing as Sisler's understudy has won him a place with the Browns even if Sisler should return to the game.

"DUTCH" SCHEIBNER

Her is acting as his understudy at first base for the St. Louis Browns. It is the toughest assignment in baseball. Scheibner was grabbed by Fohr from Brooklyn as a last resort. He was the only first sacker available. Unable to hit in the National, he had been relegated to the bench. National league critics rated Scheibner a fair fielder and not much better than a .200 hitter in the majors. A fast ball inside was said to be his weakness.

Manager Fohr took a chance. Inside of a week he had changed Scheibner's style at bat and the averages show that he is hitting close to .300.

## AUTO FATALITIES

Was Pioneer Mining Man and R. R. Builder and Former Associate of Jay Gould

BOSTON, July 27.—Abandonment of the manslaughter charge in automobile killings was asked in an appeal to the police today by Frank A. Goodwin, registrar of motor vehicles. Calling attention to mutual impossibility of obtaining convictions in motor accident cases in which manslaughter is charged, the registrar asked that the charges be made "operating recklessly" or "operating while under the influence of alcohol."

The severity of the penalty for manslaughter, Mr. Goodwin contends, deters juries from bringing in verdicts of guilty when convictions would be obtained and progress made in checking fatal accidents. If either of the lesser charges he recommended were brought,

Born in Boston, the son of George Turnbull of Liverpool, England, he went to Denver, Colo., in 1857, and engaged in the mining business.

After an experience in gold mining in California, Mr. Turnbull returned to Colorado, where he built several railroads, among them the Denver, Utah and Pacific.

## U. S. Senator Takes Cognizance of Statement Imputed to Ambassador Harvey

Quoted Harvey as Saying Johnson Predicted Election for Himself if Nominated

NEW YORK, July 27.—Senator William Johnson of California, with an emphatic denial, today took cognizance of a story appearing in certain New York papers today, quoting George Harvey, American ambassador to the court of St. James, as stating Mr. Johnson had predicted for himself election by a landslide. If he obtained the republican nomination for president.

Mr. Harvey attended the meeting here Wednesday night, at which the senator hit President Harding's world court policy. At that time Mr. Harvey, replying to questions by newspapermen, said: "Yes, I have nothing to say."

Today's stories quoted Mr. Harvey as having predicted yesterday at Long Branch, N. J., that Mr. Johnson never would receive the republican nomination in 1924, and adding that he thought Mr. Johnson a little previous in his predictions of a landslide. The ambassador was quoted as saying that Mr. Johnson had made the prediction in the course of a conversation with him.

Today the senator in a formal statement, said:

"The statement imputed to Harvey that I said to him if I received the republican nomination I would win by a landslide, is made out of whole cloth. It is absolutely false."

"I saw Harvey Wednesday evening for a few minutes in the room of Mr. Kirkwood of the Kansas City Star adjoining mine in the Elks hotel. During my brief visit made at the request of Mr. Kirkwood, both he and William Hard, the well known journalist, were present.

"There must be some mistake in quoting Harvey, for he knew of course that the quoted statement is a gross fabrication."

Senator Johnson said he planned to leave tonight for Washington and that he probably would remain until the end of August before proceeding to California.

## Return at Unchanged Wages

—Seniority and Benefit Plan Rights Impaired

BOSTON, July 27.—The telephone operators of five New England states were at peace with the New England Telephone & Telegraph Co. again today after exactly one month passed in an unsuccessful strike to enforce demands for a seven-hour working day and higher wages. The peace was declared yesterday by Julia S. O'Connor, president of the telephone operators department, International Brotherhood of Electrical Workers, after two votes had been taken by the striking girls on the question of returning to work at the terms the company offered. These terms, now accepted provide that as many girls as there are positions vacant may return to their switchboards at unchanged wages but with seniority and benefit plan rights impaired.

In various centers throughout the affected area, the girls today were applying for reinstatement. In many cities, however, according to company officials, not nearly all the girls who went on strike will be re-employed immediately as their places have been filled by new workers who have been promised permanent positions.

## Apply for Reinstatement

WOONSOCKET, R. I., July 27.—Some 40 of the 55 Woonsocket telephone operators who went on strike shortly after the New England strike commenced on June 26, have made application for reinstatement. It was reported today. These applications were made at a mass meeting in Providence yesterday and forwarded to company officials there. Several applied at the local office in person this morning and others have applied by letter. The situation otherwise remains unchanged, new girls continuing to operate the boards. None of the old operators has been taken back as yet.

## TO EXTEND MAIL AIR SERVICE TO BOSTON

BOSTON, July 27.—A request for the extension of air mail service to New England, was sent to Postmaster General Harry S. New today by President Howard Cooley of the Boston chamber of commerce. He urged that the present trans-continental service be extended to Boston at the earliest possible date.

## POLICE RECOVER STOLEN BICYCLES

The inspectors' office in the police station looked more like a bicycle shop this morning, with all kinds of bicycles piled in there. The bikes were all stolen and were recovered by the police last night.

Three boys were apprehended by the police, and they admitted, the police claim, stealing 10 bicycles. The latest theft of the boys occurred Wednesday afternoon when three machines were taken from Paige street.

The three boys will be brought in to juvenile court next week.

## Chamber of Commerce

Continued

Providence, and with the elimination of the switching charge between Providence and Lowell, rates to Lowell via Boston and Providence would be equalized. If rates are equalized, as proposed, then Lowell could receive notices just been received from the New England Freight Association

ing for the relief of congestion at Boston. In the past dealers have hesitated about getting coal via Providence because of the greater rates cost.

If the proposed ruling had been in effect during the past week or so on coal dealer who was receiving a boatload of coal at Fall River might have saved \$250. If he ordered it via Providence and received it in Lowell with the elimination of the switching charge of 60 cents per ton, the chamber of commerce took the matter up with officials of the New Haven road, declaring that if they would eliminate the switching charge it would mean that about half the coal received in Lowell would be delivered via Providence, which would amount to approximately 50,000 tons a year.

The railroad officials investigated the proposition locally, interviewing dealers and industries in order to get estimates of the amount of coal which might be ordered via Providence in the event of the elimination of the switching charge.

This is listed as a shipper's proposal. If a hearing is desired written request must be made on the chairman within 12 days from the date of the notice which is July 25. The chairman is N. M. Hawkes, 403 South station, Boston, Mass. There is the possibility of B. and M. officials opposing this measure.

It would be advantageous for Lowell to have equal rates via Boston and Providence so that in case of necessity both entrances might be used freely to avoid congestion. Dealers desiring to avoid congestion at Boston last winter and refusing to pay the increased charges via Providence ordered coal via water to Portland, Me., and rail to Lowell.

## "Call Me Magnus," Begs Western Dirt Farmer, Elected Senator

MAGNUS JOHNSON LIKES TO CARE FOR HIS HORSES. HE CERTAINLY LOOKS HAPPY IN THE UPPER LEFT-HAND PHOTO. THE SENATE WON'T SEE HIM THE WAY HE IS IN THE UPPER RIGHT-HAND PICTURE, BUT HIS NEIGHBORS OUT IN MINNESOTA DO. MRS. JOHNSON, WHO HELPS "MAGNUS" RUN THE FARM, IS SHOWN. (LOWER LEFT) MILKING ONE OF THE COWS.

was born on the Fourth of July. Who says I am not patriotic?"

Then are introduced the others of the family—"Ma" Johnson, a large pleasant-smiling, unaffected country-woman; Lillian, 23; Victor, 21; Francis, 19; Agnes, 10, and Florence, 9.

### Family of Workers

They bore the burden of farm work during the campaign. On election day Mrs. Johnson herself milked seven of the family's 24 cows before going to Minneapolis to receive election returns. "Ma" and Magnus will take the younger three children to Washington when they go.

By a back door the senator leads his visitors through to dining room to the "sitting room." The kitchen is in the rear, but in the dining room is a sink with a pump at the end instead of water faucets. On the sideboard stand fresh-filled kerosene lamps.

Lillian goes back to clearing the dishes from the table and scrapes gravy from the cloth where the children had spilled it.

As Magnus talks he opens letters at a small roll-top desk in the sitting room. There are two sections of bookcases over the desk, but the books consist almost entirely of volumes of Minnesota, legislative proceedings. Most conspicuous on the walls are old-time enlarged portraits in tarnished gilt frames, showing Magnus and his first wife. Some of the children sleep in couches in the sitting room.

Magnus tells his visitors he was born

in Sweden 52 years ago. He got good marks at school but left when he was 13. He worked on coast sailing vessels, developed his lungs in a glass factory and came to America at 20. After a few years as a lumberjack he moved to the farm which is home today, paying \$15 an acre for the first 40 acres.

### He's An Organizer

"I chopped over all this land myself," he tells you. "For 16 years I hauled cordwood to town, and the first organizing I ever did was to get farmers a fair price for wood."

Organizing has been his hobby instead of golf. He "had 10 jobs at once," he tells you. He has held various township offices and was an effective representative and state senator.

"I'll always keep the farm," he explains, and, incidentally, he shows more pride in his registered shorthorn bull than in his election.

"I like to do the chores around the farm. We're going to build a good house some day. That's a fine barn. Now we want a house to match the barn. But we'll have to pay the mortgage first."

It is suggested that Washington will be different from the serenity of the farm.

"Those fellows there aren't going to learn me anything," says Magnus. "I've been going to school in politics since I was a boy. I've been to Washington a couple of times, and they're not going to slip anything over on me."

Again it wasn't a pose. Magnus is convincing.

ST. JOSEPH, Mich., July 27.—A mob of several hundred men, bent upon obtaining two negroes held on charges of attacking a white girl at Benton Harbor, menaced the county jail here last night and was prevented from storming the structure only by a show of bravado on the part of Sheriff Geo. Bridgeman, who established a dead line and seized a member of the mob who crossed it, placing him in a cell adjoining that occupied by the two negroes.

The sheriff today asked Governor Grantham that state police be sent here.

## UPHILL FIGHT GIVES LINCOLNS 9 TO 7 VICTORY OVER AMERICANS

Fourth Inning Rally Good for Seven Runs Brings Victory to Lincolns—“Hank” Garrity Entered Box After Americans Had Scored Seven Runs and Held Opponents Runless for Remaining Three Innings—Home Run by Parkey Daley

### TWILIGHT LEAGUE STANDING

Lincolns	1	2	.333

### GAME TONIGHT

West Ends vs. Bellevues.

With a slashing seven run rally in the fourth inning the Lincolns came from behind and triumphed over the Lowell Americans in last night's Twilight League game on the South common by the score of 9 to 7.

Entering the "big" inning with the score seven to two against them, few gave the Lincolns even a outside chance to land a grand. But four hits off Garrity, combined with a series of errors, commission and commission on the part of the American infielders sent seven big runs over the pan, and "Hank" Garrity who stepped into the box in place of Lawless held the Americans scoreless during the remainder of the game. Garrity was in good form and his masterly pitching instilled confidence in his teammates and they rode high to a thrilling victory.

Parkey Lawless, who started on the mound for the Lincolns showed flashes of brilliancy, but he was accorded rather poor support, and in addition to the fact that he complained of a sore arm brought Garrity in to relieve him. Lawless allowed seven runs and five hits and he pitched four men. In the second inning Lawless struck out three men, but as Catcher George Carr dropped the third strike on Gath and then threw poorly to first, the man was safe and two runs were scored before the side was run.

Francis Regan pitched good ball with the exception of the first and fourth innings. The Lincolns got to him for three hits and two runs in the opening stanza and then jumped on his heels for the big seven-run rally in the fourth. But had the American hurler been accorded good support in the latter round he would have probably won his game.

### Home Run Drive

The contest was complete with all the details that go to make up an enjoyable exhibition of the national game. There were brilliant features intermingled with "bouts" etc. There were good, bad and indifferent stunts turned in by both sides. Classy pitching was followed by erratic hitting. However, finally hitting, was clever and lumbering running, all crowded into the seventh innings of play. A home run drive by Parkey Daley of the Americans in the first and fourth innings. The Lincolns got to him for three hits and two runs in the opening stanza and then jumped on his heels for the big seven-run rally in the fourth. But had the American hurler been accorded good support in the latter round he would have probably won his game.

### Regan Opens With Double

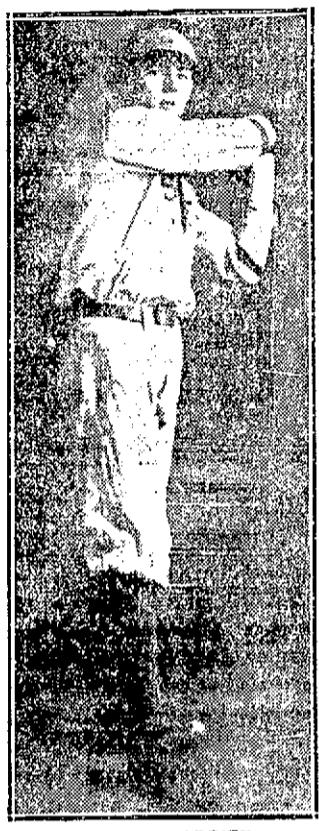

The game opened with Larry Condon running double to left. He scored when Allen drove out a single. Allen came home from second on Hoyle's hit. The Americans came right back in their half and took the lead with three runs. Gath walked and scored on Seuss's bunt and the latter counted on Lawley's home.

The Americans got two more in the second, the result of "bunt." Lawley fanned Carr, Regan and Gath in order, but the latter got a hit when Carr dropped the third strike and then threw wildly to first. Hits by O'Day and Seuss followed, with a brace of runs the result.

Again in the third the Americans got a couple. Daley bunt out, Crowe and McGowen fanned, but Carr singled and Crowe scored. Regan then bunted on, but Condon missed and Atkinson registered. Score, Americans 2, Lincolns 2.

### Avalanche of Runs

Then came the big inning, the fourth, with the Lincolns piling up seven runs. Willard, Condon and George Carr got the job done. Willard again registered home on Gath's choice and all men were safe on a play to double up Gath, right between third and home. Two grounders to the infield, two errors and another hit, sent over six runs. It

Gardner Team Defeated by the Abbot Worsteds at Graniteville

The Gardner team of the Mass. Twilight League, which defeated the Lowell C. M. C. last Tuesday evening, fell before Al Davidson of the Abbot Worsteds at Graniteville last night and lost by the score of 5 to 1. Davidson, both in the opening inning, when allowed his adversaries but two, Gardner made his only tally of the game. The Abbots connected with Lawlante's offerings for nine safeties with three out of four, belting the score.

N. E. Featherweight Champ Awarded Decision Over Britisher in Fast Bout

Manty's Bewildering Speed Deciding Factor—Nilon Injured Hands in Prelim.

In a whirlwind ten-round battle Charley Manty, of New Bedford, holder of the New England featherweight title, won the decision over Freddy Jacks, English featherweight, before a large and enthusiastic crowd at the Moody club show held in the Crescent rink last night.

Manty's bewildering speed and incessant punching enabled him to pile up an early lead that Jacks gamely but vainly tried to offset by a hurried

# DUNDEE, VETERAN OF 300 RING BATTLES, WINS FEATHERWEIGHT TITLE

## CRQUI LOSES TITLE IN SAME RING WHERE HE LIFTED IT FROM KILBANE

Dundee Scores Spectacularly Decisive Victory and Wins Title Toward Which He Has Fought For 13 Years—Crqui, Hero of Verdun, Went Down to Defeat Fighting to Last Ditch Against Relentless Foe—Knocked Down Three Times

NEW YORK, July 27.—(By the Associated Press)—Johnny Dundee, veteran of more than three hundred ring battles, today holds the throne toward which he has fought for 13 years. The featherweight champion of the world, as a result of his spectacularly decisive victory last night over Eugene Crqui, French holder of the title, in 15 rounds at the Polo grounds.

Went Down Fighting  
But while the laurels of that triumph rest with the little Italian-American, the glory of the battle went to the vanquished—the slender ex-policeman of Verdun, who went down to defeat fighting to the last ditch against a relentless foe.

Crqui lost his title in the same arena where he had lifted it from John Kilbane, the veteran, in 1911, and by knocking out the veteran in the sixth round he was outbested from start to finish last night. He was a beaten boxer from the time Dundee dropped him for a count of nine in the first round. He was on the verge of a knockout in the second when Dundee's hooks had landed in two of Crqui's counteys, and was tottering in the seventh and eighth rounds, reeling and bloody. In the 12th and against the ropes, barely able to hang on in the 13th, But full as were his efforts, he kept trying to fight back, swinging and stabbing at his fleeing, bounding target.

Grift Puzzled Dundee  
Dundee seemed puzzled by the stamp and the grit of his rival. He resorted to every device in his varied repertoire to bring the Frenchman down. He bounded from the ropes in a characteristic fashion, landed with both fists crackling, but Crqui's jaw seemed made of iron. It withstood the heaviest of Dundee's punches. They fended Crqui but they could not keep him down, and after the second round the Frenchman was never off his feet. Crqui's brilliant defensive tactics, his generalship under fire, helped him to stand on knockout, but his courage and stamina were the most important factors.

Dundee Picturesque Figure  
Crqui will sail back to France next Monday without the laurels which he hoped to take to his native country. The 26-year-old boxer, who has customarily been popular two months but did not depart from this country where he has always been held since the bare knuckle days of pugilism.

The new champion is one of the most picturesque of ring figures. He has possessed an unusual ability to make varied weight, starting as a featherweight, middleweight and even weight, without discrimination. But the world's 126-pound crown is the most important title he has ever held. Dundee also held the junior lightweight or 130-pound title but lost that recently to Jack Bernstein, of Yonkers, N. Y.

Dundee is 30 years old, married, and lives in Orange, N. J. He was born in Italy, and his real name is Joseph Carrara. Record books list more than 300 bouts in which he has engaged since 1911.

### FIGHT BY ROUNDS

Round One  
They met in the centre of the ring and started in fighting. Crqui landed right to body. Dundee landed a first real blow to the head. They kept exchanging light blows in clinches, but neither was doing damage. Crqui landed hard left to head. Dundee sent a solid left hook to the jaw and Crqui staggered with the same hand to the body. The Frenchman landed a right to the jaw that hurt. Dundee sent Crqui to the floor with a hard right to jaw and the Frenchman remained on his knees while the referee called out a count of nine. Dundee got in a relentless attack when Crqui gained his feet, slashing with both hands to the body and punishing the champion severely. Dundee was cracking away when the bell stopped him.

Round Two  
Crqui came out a little unsteady and fell into a clinch. He hooked a left to Dundee and the challenger leaned back and swung a hard left to head, making the Frenchman waver on his feet. Dundee had the crowd in the wildest uproar, hooking left to head but the Frenchman stood his ground and sent back two lefts. Dundee sent Crqui to the floor for a count of seven. The Frenchman came up and Dundee spattered him. Crqui took the count of nine. Dundee laid back for a knockout, punishing Crqui severely. Although he was wavering Crqui fought back, taking left after left and clinching when his blows landed. They were sparring lightly in the centre when the round ended.

Round Three  
Crqui looked good enough as he sat in his corner listening to the counsel of his handlers. Dundee punched him in the first attack and then landed left. Dundee forced his right solidly. Crqui came on for more punishing, wildly, but Dundee always advancing. Dundee was much too fast for the Frenchman easily evading his futile attempts and punishing accurately with both hands. Dundee repeated the old trick of bouncing off the ropes twice. He was starting the trick again when the bell ended the round.

Round Four  
Crqui started the attack but had another short or over and a series of clinches resulted. Dundee was a little slower and they sparred more but when he chose to whip his left it was out savagely. The challenger dodged half a dozen leads and inside from occasional left jabs he kept on the defensive. Then Dundee started bounding off the ropes and advancing across the ring. Crqui struck at the flying target, but it was no use. They were in a slight clinch when the bell rang.

Round Five  
Crqui sat up blood while his handlers worked feverishly. Johnny landed a half dozen lefts and they fell into a wrestling clinch. Crqui landed a wide right but was too wide on his next jab. Dundee punched the champion's kidneys and they clinched and clashed over three stiff lefts. Crqui poked his left to Johnny's head. The pace had slowed but still Crqui could

hit his adversary when the bell ended the slowest round of the fight.

### Round Six

Crqui nodded his head negatively to a friend at the ringside, showing he knew he was hopeless. Dundee came from his corner very determined, but they clinched three times. Crqui was trying hard for a knockout as was Dundee. The challenger got in a two-fisted attack to head and body and Crqui sighed again before he clinched. They exchanged a minute, exchanging at arms length and then clinched before Dundee began his next foray. He swung his hands to the head with all he had and Crqui did not hold his strength enough in his legs to walk in again. Dundee thumped the Frenchman's body and Crqui danced away. Dundee bounded his head unmercifully with both hands and was assaulting which the bell rang. Crqui walked away, refusing Dundee's hand.

### LOST ONE TITLE

### TO WIN ANOTHER

NEW YORK, July 27.—(By the Associated Press)—Johnny Dundee, the second pugilist who in a short time has lost one title only to come back and win another of greater importance. The other is Pancho Villa, flyweight king.

Dundee in a series of elimination bouts, was awarded the title of junior lightweight or 130 pound champion, a title recognized only in the United States. A few weeks ago he lost this title to Jack Bernstein on a referee's decision but now enjoys the prestige of being a full-fledged world's champion.

The little Philistine then won the world's title of his class by knocking out Jimmy Wilde of England, at the Polo grounds, June 18.

Not solve his opponent. He was warned for hitting on the break away. Dundee began chopping uppercuts when the gong sounded.

### Round Six

They came together fighting, Crqui taking the lead. Dundee battled toe to toe and his lead had the better of it. Dundee was puzzled by Crqui's maneuvering, but occasionally he slipped over that pop gun left. They exchanged punches. They were sparring at the gong.

Round Seven  
Dundee came out furiously landing his blows so rapidly it was impossible to count. The crowd joined the Frenchman in shouting low in a clinch. Dundee kept whipping over his left like a pin driver. Dundee sent several stinging attacks with his left, but Crqui only kept crowding him. They were in a clinch at the bell.

### Round Eight

Dundee landed a left and right and Crqui hooked a right to jaw and Dundee resumed his attack. The whip whip left to head as his feet left the floor. Crqui went blows to body in a clinch. Dundee hooked both his fists into stomach but still Crqui kept coming. Dundee began to lay back. He hit Crqui with a right to the ribs and then staggered him with blows with both hands. Crqui was very groggy and had spattered from his mouth and nostrils both fighters. Dundee pounded him severely with both hands, but the challenger began to slow down when the bell ended the round.

### Round Nine

Crqui was in probably bad condition as he sat in his corner but Dundee appeared fresh. They fought in the centre. Dundee stepped back and began jumming him with his long left. With marvelous grit Crqui continued stepping in though his legs were so wobbly he could hardly stand. The Frenchman vainly shot a long left but he was very tired. Dundee now came with his lefts tearing away but still Crqui walked on striking wildly and ineffectively covering up. They fought toe to toe in a shunting body exchange and Dundee as he walked to his stool was plainly perplexed.

### Round Ten

Crqui sent a left to the face, in return for a left to the stomach. Crqui was tending with his left but it was invariably wise and he fell into Dundee's arms. Dundee pounded his adversary's head with both hands in a neutral corner. The crowd cheered Crqui as he continued his unrelenting attack, but his blows were weakly feeble. He nearly fell over the challenger when he swung a hard right and Dundee swayed back to measure him, but they clinched. Dundee fell back. He hit Crqui right to the left up and over as Crqui gamely came in to slaughter. Dundee was at it as the bell ended.

### Round Eleven

Crqui was wild with a left but he hooked a short left to the head and jabbed with it three times. Dundee, who was less affected now, went grimly to his work, retreating and jumming again. He landed both hands to the jaw and a right. Dundee was still clinging to the ropes and advancing up when Crqui stood up with glassy eyes. All he could do was wave his hands at his swooning opponent. Crqui missed a wide uppercut after Dundee was short with lefts. Dundee had slowed down and they were sparring quickly when the bell rang.

### Round Twelve

Crqui tried to smile with his shattered jaw. Crqui still was landing his lefts. Dundee was getting in the blows, hefty lefts. Dundee rocked the champion with a two-fisted attack that would batter down most, but Crqui, standing on his feet, stood his ground. Crqui weathered the storm. He raised his head for another advance. The action slowed for a minute, then Dundee placed both hands hitting Crqui in every vulnerable spot, but the Frenchman smiled derisively and tried to put over an uppercut. The crowd was on its feet in a tempestuous roar as Crqui gave another derivative and finally going to his corner at the bell.

### Round Thirteen

They clinched. Dundee began his attack earnestly but Crqui fought back and Dundee clinched. Crqui backed Dundee into a neutral corner but had difficulty keeping his balance. Dundee staggered him with a right cross but Crqui remained nimble, having a great stick. The Frenchman ducked a wide left and was wild with two more. Dundee planted his feet and plunged with his left but he kept waiting and Crqui was leading another advance when the gong ended the round.

### Round Fourteen

They sparred a full minute. They fought at long range and danced about before Dundee whipped over two lefts that forced a clinch. Crqui caught Dundee flush as he bounded from the ropes, but Crqui could not break an egg now. He did not refrain from the attack, however, and was mixing with

## Puzzling Plays

By BILLY EVANS

### The Play

The rights of the fielder and base runner on batted balls to the indelible.

There are perhaps a half dozen situations in which the ruling va-

ries.

Here is a play that is the cause of many a dispute.

Rumberg is on second base, the batsman hits a hard grounder directly at the third baseman. The runner on second is going over on the play.

The ball strikes squarely in the hands of the third sacker, but he is unable to hold it, and it is deducted into left field.

The runner going over from second is close to the shortstop, when this happens. The shortstop makes a rush to get the ball and collides with the base runner. The runner gets to his feet and reaches third in safety, the batter going to second.

Is the runner out for interference?

The Interception.

The runner is not out for interference. The runner who reached third and the batter who got to second on the play are entitled to hold such bases.

In this case the third sacker made a play on the ball, hence when the shortstop and runner collided it was of no moment.

If such interferences were allowed, fielders would always try to collide with a runner, after some other player had made an error, in an effort to nullify the play.

suburb. His arm is in perfect shape, the management saying him in last night's game with the Ferry, N. H. team. Rube has been pitching wonderfully for the Silesians this season and has won one match and lost one. His mates have been hitting the ball on the nose. Eddie Cawley, Joe Duffy and Wally Foye being especially brilliant in this important department. The game with Billy McFenough's outfit will start at 3:15.

Next Sunday, the Silesians will play the strong team of the Independents in the first game at Silesia park, last Sunday.

Both Dundee and Dundee will start in the coming tussle.

My opponent's ball strikes mine in the fairway and moves it a considerable distance, the ball finally coming to rest in a very bad lie. Must I accept the happening as a break of the game and play the ball from the bad lie or can I replace it as near as possible to its original location before being hit by my opponent's ball?

## SILESIANS TOO MUCH FOR DERRY TEAM

Wayne Peterson pitched the Silesians team to a 3 to 2 victory over the Derry, N. H. team in an intra-state last evening. A eighth inning rally in which Fitzgerald scored on J. Gilmore's sacrifice fly broke a 2-2 tie and brought the win to the locals. It was Peterson's first appearance in a Silesia uniform and he came through with colors flying. The score:

and out of line of B's play. The ball shoots off at a peculiar angle, strikes the person of A and then engulfs him.

There is no penalty.

Playing his second shot in a match game, Player A hits the ball and it lands on the wrong green.

Must the ball be played from its hole on the wrong green, or is it allowed to roll into the hole?

The ball must be played from its hole on the wrong green, otherwise the player would suffer the loss of the hole.

## SHOOT'S GIRL, ENDS LIFE DOG BROKE QUARANTINE

53-Year-Old Baker Shot Bride of Two Weeks When She Refused to Elope With Him

NEW YORK, July 27.—William Smith, 53 year old baker, today shot Mrs. Anna Loshinsky, 20-year-old bride, of two weeks, at her home on East 74th street because she had refused to elope with him, and then shot himself. Mr. Loshinsky was hit in both legs but is expected to recover. Smith later died in a hospital.

The case was reported to the board of health this morning and Agent Francis J. O'Hare passed it along to Dr. Sherman for investigation, asking him particularly to ascertain why the owner of the dog allowed it to break quarantine.

NO TRACE OF POISON, WITNESSES RELEASED

WASHINGTON, July 27.—Although watching closely the negotiations at Atlantic City between anticuban mine operators and officials of the miners' union the coal commission was said to day to be undecided as yet to interpose.

John Hays Hammond, the commission chairman, expressed the opinion that the conference is "not so dangerously near a break," adding that a certain amount of "separatism" in such matters is inevitable.

The commission was understood to be ready to urge a continuance of the wage negotiations in case any threat of a strike should develop.

## FEDERAL RECOGNITION OF NAT. GUARD OFFICERS

WASHINGTON, July 27.—Announcement of the "federal recognition" of six general officers of the national guard was made today at the war department.

The officers are Major General Charles W. Berry, commanding the 27th (New York) Infantry Division; Brig. Gen. William A. Raupp, Pierce City, Mo.; Thomas F. Foley, Worcester, Mass.; William O. Richardson, New York city; Alfred E. Poole, Holyoke, Mass., and Morse B. Payne, New London, Conn.

LOWELL AUTOIST WAS OVERCOME BY GAS

Julian Glavin was overcome by gas which escaped from the motor of his engine while stopped on Tremont street, Boston, yesterday. He has recovered and is at his place of business, the Glavin Hardware store, in Merrimack street today. While waiting for a fellow passenger, Glavin was overcome by escaping gas. He was removed to the City hospital in a passing automobile, where he was quickly revived. He returned to his home last evening and said today he is none the worse after his rather unpleasant experience.

## STOCK MARKET

NEW YORK, July 27.—Opening prices in today's stock market were heavy. Selling pressure was again apparent in the Northwestern rails and a number of standard industrial and specialties including Baldwin, Studebaker, Sinclair and Marland, all of which yielded fractionally. Bethlehem Steel, which had advanced a point in yesterday's market, yielded a point in the collection of the favorite quality earnings statement and United States Steel and Sloss Sheffield advanced in sympathy.

Northwestern rails continued weak, Great Northern preferred and Northern Pacific each dropping more than a point in new low records for the year. American Express, which had advanced a new high standard of California and Reynolds Spring, each yielded about a point. Schulz Stores advanced 1 1/2%. The copperers were firm. Foreign exchanges opened heavy. German marks touching a new low for all time at .000098 cents, or 1,007,527 to the dollar.

Settling for both accounts assumed larger proportions during the morning and the general flat weakened with the rails and oils showing the largest losses. Great Northern preferred and Northern Pacific each extended their losses to nearly 2 points and Texas company, Canadian Pacific, Reading company and first preferred, Chicago & Northwestern, St. Louis & Southwestern preferred, Chesapeake & Ohio, and Illinois & Michigan, all of which dropped 1 1/2%. Western Union advanced 3 1/2 points. United Felt 3 and Foundation company 2 1/2, while Baldwin, May Department Stores and Marland Oil were depressed 1 1/2 to 2 points. Cali money opened at 5 per cent.

Liquidation became more general in the early afternoon and early losses were generally extended. Some of the rails and oils advanced about nearly three points below yesterday's closing prices. Steels yielded 1 to 1 1/2 and a number of other industrial specialties were down a point or more.

The close was weak. Short interests launched another attack on the list in the late dealings and prices broke sharply in all quarters. More than a score of stocks including U. S. Steel dropped to new low records for the year.
